

U.S. DEPARTMENT OF ENERGY
OAKLAND OPERATIONS OFFICE

SYSTEM INTEGRATION OF A STIRLING
RADIOISOTOPE POWER SYSTEM (SRPS)

Request for Proposals
DE-RP03-00SF22042
Closing Date: JUNE 26, 2000

DEPARTMENT OF ENERGY
Oakland Operations Office
1301 Clay St.
Oakland, California 94612-5208

May 19, 2000

TO: Offerors

SUBJECT: Executive Summary - Request for Proposals No. DE-RP03-00SF22042
System Integration of a Stirling Radioisotope Power System

Introduction

The Department of Energy (DOE) Oakland Operations Office (OAK) requests proposals for the Systems Integration of a Stirling Radioisotope Power System (SRPS). This letter summarizes the background and the salient elements of the solicitation. It is not an integral part of the solicitation. In the event of any conflict between this executive summary and the solicitation, the solicitation will prevail.

Background

NASA's space exploration plans encompass a broad set of missions to extensively explore the planets and regions beyond the Earth's orbit. For missions where radioisotope power sources are required, DOE has the responsibility to develop and fabricate the power systems. To meet the requirements for a lighter and more efficient radioisotope power system for future missions, DOE will be designing and qualifying a power system based on the Stirling Convertor. The Statement of Work is based on using a 55 watt-electric Stirling Convertor developed by the Stirling Technology Co. However, alternate Stirling technologies might be considered if they can be demonstrated to be at an equivalent technology readiness level (i.e., have successfully passed flight qualification vibration tests; demonstrated continuous operation of at least two years; demonstrated performance of at least 20 % conversion efficiency). Clause M contains Qualification Criteria if an alternate Stirling technology is proposed.

Purpose of Solicitation

The purpose of the solicitation is to select a Systems Integration Contractor for the SRPS Project. OAK is interested in receiving offers from qualified commercial sources capable of planning, engineering, design, fabrication, testing, inspection, documentation, technical assistance, and project management to support the SRPS Project.

The contractual effort will consist of three separate phases: Phase I is SRPS Conceptual Design and Phase II/II is Planning and Proposal Preparation, Phase II is SRPS Design, Development, Demonstration and Qualification; and Phase III is SRPS Flight Program. It is DOE's intent to award multiple contracts for the Phase I effort. Based upon the Conceptual Design Review at the end of Phase I and an evaluation of the Phase II/III proposals, one contractor may then be selected for the Phase II/III effort. This solicitation contains the model contract, Statement of Work, Reporting Requirements and Contractor Data Requirements List (CDRL), the proposal preparation instructions, and evaluation criteria for all Phases. **Offerors should note that no other solicitation will be issued for the Phase II/III effort and that only the successful offerors selected for the Phase I effort will be allowed to submit a proposal for Phase II/III.**

The model contract contained in the solicitation contains all the terms and conditions for all phases. Clauses or sections of clauses applicable only to Phase I or Phase II/III are identified as such.

Offerors should also note that the technical proposal for Phase I only requires that offerors provide information as to their capability to be a system integration contractor, information on past performance and based on these requirements the technical proposal for Phase I should not exceed 25 pages in length.

Contract Type

For the Phase I effort the contract type will be firm fixed price up to \$650K each and a duration of up to six months. If a decision is made to continue with the Phase II/III effort the contract will be negotiated as a cost reimbursement plus fixed fee.

Contents of Solicitation

Sections B through J of the solicitation represent the draft contract and will be the basis for the contractual relationship between DOE and the selected offeror. Section K addresses the representations, certifications, and other statements of the offerors which should be completed and submitted in Volume I of the proposal. Section L represents the instructions, conditions, and notices to offerors. Section M addresses the evaluation factors which are the basis for award. Attachments contained at the end of the solicitation are used when preparing and submitting proposals in accordance with the proposal preparation instructions in Section L.

Contract Duration

The contract duration contemplated for Phase I is 6 months. The contract duration contemplated for Phase II/III is 6 years.

Security Clearances

The systems design and integration of the SRPS is unclassified. However, some of the interactions with DOE/Mound, NASA, and other entities may require personnel with appropriate security clearances. It is anticipated that approximately four "L" level clearances will be necessary for the interaction with DOE/Mound and 15 "L" level clearances may be needed for dealings with NASA at the launch site.

Preproposal Conference

A preproposal conference will not be held. All questions concerning this solicitation should be submitted by fax or e-mail to Wayne Bryan, Contract Specialist. The fax number is (510) 637-2004. The e-mail address is wayne.bryan@oak.doe.gov. Written responses to all questions received by fax or e-mail by May 26, 2000 will be posted as an amendment to the solicitation on the Internet at <http://www.oak.doe.gov>.

Proposal Responses

Proposal responses to the Solicitation are due to be delivered to the U.S. Department of Energy, Mail and Records Room, 1301 Clay Street, Room 700N, Oakland, California, 94612, not later than 3:00p.m. local time on June 26, 2000. (See Part II-Section L, Clause L.007 of the Solicitation Document for detailed delivery instructions).

Please advise Mr. Wayne Bryan, of your intention submit a proposal in response to this Solicitation by returning Attachments IX, "Intention To Propose" form.

Sincerely,

Aundra Richards
Contracting Officer

and Attachments

SOLICITATION, OFFER AND AWARD		1. THIS CONTRACT IS A RATED ORDER UNDER DPAS (15 CFR 700)		RATING	PAGE 1 OF 89 PAGES
2. CONTRACT NUMBER	3. SOLICITATION NUMBER DE-RP03-00SF22042	4. TYPE OF SOLICITATION 9 SEALED BID (IFB) NEGOTIATED (RFP)	5. DATE ISSUED May 19, 2000	6. REQUISITION/PURCHASE NUMBER 03-00SF22042.000	
7. ISSUED BY U.S. Department of Energy Oakland Operations Office 1301 Clay Street, Room 700N Oakland, CA 94612-5208		8. ADDRESS OFFER TO (if other than item 7)			

NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and bidder".

SOLICITATION

9. Sealed offers in original and See L.041 copies for furnishing the supplies or services in the Schedule will be received at the place specified in item 8, or if handcarried in the depository located in See L.007 until (Hour) local time (Date)

CAUTION: LATE Submissions, Modifications, and Withdrawals: See Section L, Provision No. 52.214-7 or 52.215-1. All offers are subject to all terms and conditions contained in this solicitation.

10. FOR INFORMATION CALL:	A. NAME Wayne Bryan	B. TELEPHONE (NO COLLECT CALLS)			C. E-MAIL ADDRESS wayne.bryan@oak.doe.gov

SECTION B

SUPPLIES OR SERVICES AND PRICES/COSTS

B.03 ITEMS BEING ACQUIRED/TOTAL PRICE - PHASE I

The Contractor shall furnish all personnel, facilities, equipment, material, supplies, and services (except as may be expressly set forth in this contract as furnished by the Government) and otherwise do all things necessary for, or incident to, the performance and providing the following items of work:

Item 1 - Preliminary Conceptual Design Review

Item 2 - Final Conceptual Design Review

Item 3 - Phase II/III Proposal and Conceptual Design Report

TOTAL FIRM-FIXED-PRICE FOR PHASE I: \$***

B.003 OPTION FOR PHASE II/III OF THE STATEMENT OF WORK

- (a) The Government may, after the Contractor's successful completion of Phase I of the Work Scope, direct the Contractor to proceed with the following:
 - Item 4 - System Integration of Stirling Radioisotope Power System (SRPS) - Phase II/III - in accordance with the Statement of Work as listed in Part III, Section J.
 - Item 5 - Phase II/III Reports in accordance with "Reporting Requirements Checklist", as listed in Part III, Section J.
- (b) The Government's decision to direct the Contractor to proceed with the Phase II/III Work Scope will be provided to the Contractor within 120 days after delivery of the Phase I deliverable, Item 3.
- (c) If the Government does not elect to continue the Phase II/III effort with the Contractor, this decision will not constitute a Termination for Convenience as defined in FAR 52.249-4.

B.004 ESTIMATED COST AND FIXED FEE - ALTERNATE I - PHASE II/III

- (a) The estimated cost of the work is \$_____. ***.
- (b) The fixed fee payable to the Contractor is \$_____. ***. The fixed fee shall be payable in monthly installments based upon the percentage of work completed as determined by the Contracting Officer.
- (c) The total estimated contract amount is \$_____. ***. Of this amount, \$_____. *** is available for operating expenses (\$_____. *** for cost and \$_____. *** for fee).
- (d) Notwithstanding paragraph (c) above and pursuant to the clause entitled "Limitation of Funds" (FAR 52.232-22), the amount of \$_____. *** has been allotted by the Government. Of these funds, \$_____. *** is available for operating expenses (\$_____. ** for cost and \$_____. *** for fixed fee). It is estimated that the allotted amount will cover a period of performance from the effective date of this contract through _____. ***.

SECTION C

DESCRIPTION/SPECIFICATION/WORK STATEMENT

C.001 STATEMENT OF WORK (MAY 1996)

The Statement of Work is an attachment to this contract as listed in Part III, Section J.

C.002 REPORTS (FEB 1998)

Reports shall be in accordance with the "Reporting Requirements Checklist", as listed in Part III, Section J.

C.003 PREPARATION AND TRANSMITTAL OF SCIENTIFIC AND TECHNICAL INFORMATION (MAR 2000)

- (a) The Contractor shall deliver Scientific and Technical Information (STI) in accordance with DOE Order 241.1, "Scientific and Technical Information Management," and its accompanying DOE Guide 241.1-1, "Guide to the Management of Scientific and Technical Information." Both documents can be accessed on the internet at "<http://www.explorer.doe.gov>", and are incorporated in this contract by reference.
- (b) The Contractor shall submit each report or other STI product electronically on the DOE Energy Link System (E-Link). The following formats are acceptable: Word Perfect, MS Word. The E-Link data base may be accessed on the internet at "<http://www.osti.gov/mlink>". Each report or other STI product shall be accompanied by a complete and accurate DOE Form 241.3, "Announcement of Department of Energy (DOE) Direct Procurement Scientific and Technical Information." This form is also available on the internet website given above.
- (c) DOE will return any report or other STI product submitted without a complete DOE Form 241.3. No action will be taken by DOE until a complete 241.3 is received along with the report or other STI product.
- (d) Each report or other STI product must be accompanied by a separate DOE Form 241.3.
- (e) Do not send reports or other STI products directly to the Office of Scientific and Technical Information (OSTI). The Contractor shall refer to the Reporting Requirements Checklist attached to this instrument for the appropriate addressees.

SECTION D
PACKAGING AND MARKING

D.001 PACKAGING (MAY 1996)

- (a) Preservation, packaging, and packing for shipment or mailing of all work delivered hereunder shall be in accordance with good commercial practice and adequate to insure acceptance by common carrier and safe transportation at the most economical rate(s).
- (b) Except for those reports required by the Reporting Requirements Checklist of the contract which are coded by A (As required) (e.g., Hot Line Report) where the urgency of receipt of the report by the Government necessitates the use of the most expeditious method of delivery, reports deliverable under this contract shall be mailed by use of first-class mail or some less costly method of postal delivery, unless the urgency of the deliverable sufficiently justifies the use of a more expeditious method of delivery. Any use of a more expeditious method of delivery (e.g., U. S. Postal Service express, certified, or registered mail or private parcel delivery service) for the distribution of reports under this contract must be justified by the Contractor.

D.002 MARKING (MAY 1996)

- (a) Each package, report or other deliverable shall be accompanied by a letter or other document which:
 - (1) Identifies the contract by number under which the item is being delivered.
 - (2) Identifies the deliverable Item Number or Report Requirement which requires the delivered item(s).
 - (3) Indicates whether the Contractor considers the delivered item to be a partial or full satisfaction of the requirement.
- (b) For any package, report, or other deliverable being delivered to a party other than the Contracting Officer, a copy of the document required in (a) above shall be simultaneously provided to the office administering the contract, as identified in Section G of the contract, or if none, to the Contracting Officer.

SECTION E
INSPECTION AND ACCEPTANCE

E.001 INSPECTION (MAY 1996)

Inspection of all items under this contract shall be accomplished by the DOE Project Manager, also referred to as the Contracting Officer's Representative (COR).

E.002 ACCEPTANCE (MAY 1996)

Acceptance of all work and effort under this contract (including "Reporting Requirements," if any) shall be accomplished by the Contracting Officer.

SECTION F
DELIVERIES OR PERFORMANCE

F.01 PERIOD OF PERFORMANCE - PHASE I

All Phase I work under this contract, including completion of all reports, shall be completed within six (6) months after the effective date of this contract.

F.03 REQUIRED TIME OF DELIVERY - PHASE I

(a) The Government requires delivery to be made according to the following schedule:

REQUIRED DELIVERY SCHEDULE

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>QUANTITY</u>	<u>DELIVERY SCHEDULE</u>
1	Preliminary Conceptual Design Review	1	Three months after award
2	Final Conceptual Design Review	1	Five months after award
3	Phase II/III Proposal and Conceptual Design Report	1	Six months after award

F.003 PERIOD OF PERFORMANCE - PHASE II/III

The Phase II/III work under this contract shall commence on *** and be completed by ***.

F.005 PRINCIPAL PLACE OF PERFORMANCE (MAY 1996)

SECTION G
CONTRACT ADMINISTRATION DATA

G.001 CORRESPONDENCE PROCEDURES (MAY 1996)

To promote timely and effective administration, correspondence (except for invoices and reports) submitted under this contract shall be subject to the following procedures:

- (a) Technical Correspondence. Technical correspondence (as used herein, excludes correspondence where patent, technical data, or other intellectual property issues are involved and correspondence which proposes or otherwise involves waivers, deviations, or modifications to the requirements, terms, or conditions of this contract) shall be addressed to the DOE Project Manager (see paragraph (a) of clause G.003 for the address), with an information copy of the correspondence to the DOE Contract Specialist (see paragraphs (c) and (d) of clause G.002 for the name and address) and to the cognizant Government Contract Administration Office (if other than DOE) designated on the face page of this contract.
- (b) Other Correspondence.
 - (1) If a Government Contract Administration Office is designated on the face page of this contract, all administrative correspondence, other than technical correspondence, shall be addressed to the Contracting Officer at the Government Contract Administration Office so designated, with information copies of the correspondence to the DOE Contracting Officer (see paragraph (c) of clause G.002 for the address) and to the DOE Project Manager, and to the DOE Patent Counsel (where patent, technical data, or other intellectual property issues are involved) (see paragraph (a) of clause G.004 for the address).
 - (2) If no Government Contract Administration Office is designated on the face page of this contract, all correspondence, other than technical correspondence shall be addressed to the DOE Contracting Officer, with information copies of the correspondence to the DOE Project Manager, and to the DOE Patent Counsel (where patent, technical data, or intellectual property issues are involved) (see paragraph (a) of clause G.004 for the address).
- (c) Subject Lines(s). All correspondence shall contain a subject line commencing with the contract number, as illustrated below:

"SUBJECT: Contract No. (Insert the contract number from face page) (Insert subject topic after contract number, e.g. 'Request for subcontract placement consent')."

G.002 GOVERNMENT CONTACT FOR POST-AWARD ADMINISTRATION
(MAY 1996)

The Contractor shall use one of the following Government contacts, as applicable, as the focal point for all matters regarding this contract, except technical correspondence matters (see paragraph (a) of clause G.001 for definition):

- (a) Government Contract Administration Office: If a Government Contract Administration Office is designated on the face page of this contract, the Contractor shall use the Contracting Officer at the Government Contract Administration Office so designated as the focal point of contact for all matters regarding this contract, except technical correspondence matters. If property administration is the only post-award contract administration function delegated with respect to this contract, the cognizant administrative agency shall be contacted only for those specific property administration functions so delegated.
- (b) DOE Contracting Officer: If no Government Contract Administration Office is designated on the face page of this contract, the Contractor shall use the DOE Contract Specialist designated in paragraph (d) below as the focal point of contact for all matters regarding this contract, except technical correspondence matters.
- (c) DOE Contracting Officer's Address: The DOE Contracting Officer's address is as follows:

U.S. Department of Energy
DOE Oakland Operations Office
Contracts, Acquisition and Property Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208

- (d) DOE Contract Specialist: The DOE Contract Specialist for the contract is located at the address in paragraph (c) above and is as follows:

Name: Wayne Bryan

Telephone No.: (510) 637-1712

Facsimile No.: (510) 637-2004

G.003 DOE PROJECT MANAGER (MAY 1996)

- (a) The DOE Project Manager's mailing address and telephone number are as follows:

U.S. Department of Energy
DOE Oakland Operations Office
National Security Programs Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208
ATTN: Kim Efishoff

Telephone No.: (510) 637-1513
Facsimile No.: (510) 637-2078

- (b) The DOE Project Manager identified for this contract is the DOE Contracting Officer's Representative (COR). The Contractor shall use the COR as the point of contact on technical correspondence matters (see paragraph (a) of clause G.001 for definition), subject to the restrictions in clause H.002 entitled "Technical Direction."

G.004 DOE PATENT COUNSEL (MAY 1996)

- (a) To obtain information regarding inventions, patents, copyrights, proprietary legends, waivers of patent rights in identified inventions, administration of the patent and data duties and obligations of subcontractors, and other intellectual property issues (except those issues specified in paragraph (b) below) and to transmit copies of invention disclosure reports, manuscripts describing inventions for publication, patent applications, and other correspondence involving the above-described intellectual property issues, the DOE Patent Counsel's mailing address and telephone number are as follows:

ATTN: William Daubenspeck
Patent Attorney, Prosecution Branch
U. S. Department of Energy
P. O. Box 808, L-376
Livermore, CA 94550

Telephone No.: (925) 422-1426

- (b) To obtain information on issues involving advance patent waivers, software licenses, and exceptions, deviations, or modifications to the standard terms and conditions in

the patent rights and technical data rights clauses of this contract or of any subcontract, the DOE Patent Counsel's mailing address and telephone number are as follows:

U. S. Department of Energy
DOE Oakland Operations Office
Intellectual Property Law Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208
ATTN: Thomas O'Dwyer

Telephone No.: (510) 637-1679

- (c) To transmit copies of reports indicated on the "Reporting Requirements Checklist", as listed in Part III, Section J of this contract, the DOE Patent Counsel's mailing address shall be the address designated on the Reports Distribution List/Addressees attachment to the checklist.

G.05 BILLING INSTRUCTIONS - PHASE I

- (a) The Contractor shall submit an original invoice or voucher to:

U.S. Department of Energy
Albuquerque Operations Office
Attn: AFSC/VGST
P.O. Box 5328
Albuquerque, NM 87185-5328

- (b) The Contractor shall submit two (2) copies of the invoice to:

U.S. Department of Energy
Oakland Operations Office
Contracts, Acquisition and Property Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208
Attn: CAPD/Invoice Control Desk

- (c) Each invoice or voucher submitted shall include the following:

- (1) Contract Number
- (2) Contractor Name
- (3) Date of Invoice
- (4) Invoice Number
- (5) Amount of Invoice
- (6) Period Covered or Items Delivered
- (7) Cumulative Amount Invoiced to Date

G.005 BILLING INSTRUCTIONS - PHASE II/III

The Contractor shall submit invoices in accordance with the Billing Instructions identified in PART III - SECTION J, and other applicable clauses of this contract.

G.06 PAYMENT SCHEDULE - PHASE I

The Government shall make progress payment according to the following schedule:

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PAYMENT AMOUNT</u>
1	Preliminary Conceptual Design Review	10% of total Firm Fixed Price
2	Final Conceptual Design Review	10% of total Firm Fixed Price
3	Phase II/III Proposal and Report	80% of total Firm Fixed Price

SECTION H
SPECIAL CONTRACT REQUIREMENTS

H.001 CONSECUTIVE NUMBERING (MAY 1996)

Due to automated procedures employed in formulating this document, clauses contained within it may not always be consecutively numbered.

H.002 TECHNICAL DIRECTION (MAY 1996)

- (a) Performance of the work under this contract shall be subject to the technical direction of DOE Project Manager or Technical Representative identified elsewhere in this contract. The term "technical direction" is defined to include:
 - (1) Directions to the Contractor which redirect the contract effort, shift work emphasis between work areas or tasks, require pursuit of certain lines of inquiry, fill in details or otherwise serve to accomplish the contractual Statement of Work.
 - (2) Provision of written information to the Contractor which assists in the interpretation of drawings, specifications or technical portions of the work description.
 - (3) Review and, where required by the contract, approval of technical reports, drawings, specifications and technical information to be delivered by the Contractor to the Government under the contract.
- (b) Technical direction must be within the scope of work stated in the contract. The Project Manager or Technical Representative does not have the authority to, and may not, issue any technical direction which:
 - (1) Constitutes an assignment of additional work outside the Statement of Work;
 - (2) Constitutes a change as defined in the contract clause entitled "Changes";
 - (3) In any manner causes an increase or decrease in the total estimated contract cost, the fixed fee (if any), or the time required for contract performance;
 - (4) Changes any of the expressed terms, conditions or specifications of the contract; or
 - (5) Interferes with the Contractor's right to perform the terms and conditions of the contract.

- (c) All technical directions shall be issued in writing by the Project Manager or Technical Representative.
- (d) The Contractor shall proceed promptly with the performance of technical directions duly issued by the Project Manager or Technical Representative in the manner prescribed by this clause and within his/her authority under the provisions of this clause. If, in the opinion of the Contractor, any instruction or direction by the Project Manager or Technical Representative falls within one of the categories defined in (b)(1) through (5) above, the Contractor shall not proceed but shall notify the Contracting Officer in writing within five (5) working days after receipt of any such instruction or direction and shall request the Contracting Officer to modify the contract accordingly. Upon receiving the notification from the Contractor, the Contracting Officer shall:
 - (1) Advise the Contractor in writing within thirty (30) days after receipt of the Contractor's letter that the technical direction is within the scope of the contract effort and does not constitute a change under the "Changes" clause of the contract; or
 - (2) Advise the Contractor within a reasonable time that the Government will issue a written change order.
- (e) A failure of the Contractor and Contracting Officer to agree that the technical direction is within the scope of the contract, or a failure to agree upon the contract action to be taken with respect thereto shall be subject to the provisions of the clause entitled "Disputes - Alternate I."

H.003 MODIFICATION AUTHORITY (MAY 1996)

Notwithstanding any of the other clauses of this contract, the Contracting Officer shall be the only individual authorized to:

- (a) accept nonconforming work;
- (b) waive any requirement of this contract; or
- (c) modify any term or condition of this contract.

H.004 GOVERNMENT PROPERTY - CONTRACTOR-ACQUIRED AND GOVERNMENT-FURNISHED - PHASE II/III

(a) Acquisition Authorization Requirements.

- (1) In the course of performance of this contract, the Contractor may only acquire and direct charge to this contract such facilities, equipment (including office equipment), furniture, fixtures, or other real or personal property items as have been specifically authorized by the Contracting Officer by inclusion of such items on the LIST OF GOVERNMENT PROPERTY - CONTRACTOR-ACQUIRED attached to this contract (see Part III, Section J for the identification of the attachment).
- (2) The Contractor may request authorization for acquisition of additional items from the Contracting Officer. Any such request for authorization of additional items shall include an analysis of the most economical method of acquisition (e.g., lease versus purchase) and shall describe the material equity arising from any proposed lease arrangement, such as option credits.
- (3) Any changes in the acquisition authorization shall be reflected in a modification to this contract which modifies the LIST OF GOVERNMENT PROPERTY - CONTRACTOR-ACQUIRED.
- (4) Authorization to acquire does not constitute consent to the placement of a subcontract.

(b) Government-Furnished Property.

Only that property specifically included in the LIST OF GOVERNMENT PROPERTY - FURNISHED attached to this contract shall be furnished (see Part III, Section J for the identification of the attachment).

(c) Reporting Requirements.

- (1) The reports required in accordance with 48 CFR Chapter 9, Part 945 shall be submitted on the forms provided by DOE in accordance with 48 CFR Chapter 9, Part 945 and the forms' instructions.
- (2) The reports are to include all capital equipment and sensitive items acquired or furnished under this contract, whether or not listed on the attachments referenced above.

H.005 KEY PERSONNEL (MAY 1996)

- (a) Pursuant to the clause in Part II, Section I entitled "Key Personnel" (DEAR 952.235-70), the Contractor's key personnel are as follows:

<u>NAME</u>	<u>TITLE</u>
***	***
***	***
***	***

Key Personnel are dedicated full-time to this contract.

- (b) The clause entitled "Key Personnel" contains a requirement for notification to the Contracting Officer reasonably in advance (i.e., not less than thirty (30) calendar days) of diversion of, or substitution for, any of these individuals.

H.006 SUBCONTRACTS (SEP 1998) - PHASE II/III

Prior to the placement of subcontracts and in accordance with the clause entitled "Subcontracts (Cost-Reimbursement and Letter Contracts)" (FAR 52.244-2), the Contractor shall insure that:

- (a) they contain all of the clauses of this contract (altered when necessary for proper identification of the contracting parties) which contain a requirement for such inclusion in applicable subcontracts. Particular attention should be directed to the potential flowdown applicability of the clauses entitled "Utilization of Small, Small Disadvantaged and Women-Owned Small Business Concerns" (FAR 52.219-8) and "Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan" (FAR 52.219-9) listed in Part II, Section I, Subsection I Contract Clauses (DOE List 304) of the contract;
- (b) any applicable subcontractor Certificate of Current Cost or Pricing Data (see FAR 15.406-2) and subcontractor Representations and Certifications (see Part IV, Section K and the document referenced in clause H.011 hereof); and
- (c) any required prior notice and description of the subcontract is given to the Contracting Officer and any required consent is received. Except as may be expressly set forth therein, any consent by the Contracting Officer to the placement of subcontracts shall not be construed to constitute approval of the subcontractor or any subcontract terms or

conditions, determination of the allowability of any cost, revision of this contract or any of the respective obligations of the parties thereunder, or creation of any subcontractor privity of contract with the Government.

H.007 SERVICES OF CONSULTANTS (MARCH 2000) - PHASE II/III

- (a) In addition to the provisions of the clause of this contract entitled "Subcontracts Under Cost-Reimbursement and Letter Contracts," the prior written consent of the Contracting Officer also shall be obtained:
 - (1) For the utilization of the services of any consultant under this contract exceeding the daily rate of \$700, exclusive of travel costs; or
 - (2) Where the services of any consultant under this contract will exceed ten days in any calendar year, or exceed a total value of \$7,000.
- (b) Whenever Contracting Officer written consent is required, the Contractor will obtain and furnish to the Contracting Officer information concerning the need for and selection of such consultant services and the reasonableness of the fees to be paid, including, but not limited to, whether fees to be paid to any consultant exceed the lowest fee charged by such consultant to others for performing consulting services of a similar nature.

H.010 CONFIDENTIALITY OF INFORMATION (MAY 1996)

- (a) To the extent that the work under this contract requires that the Contractor be given access to or be furnished with confidential or proprietary business, technical, or financial information or data belonging to other entities which is clearly marked as confidential or proprietary, the Contractor shall, after receipt thereof, treat such information in confidence and agrees not to appropriate such information to its own use or to disclose such information to third parties unless specifically authorized in writing by the Contracting Officer. The foregoing obligations, however, shall not apply to:
 - (1) Information or data which is in the public domain at the time of receipt by the Contractor;
 - (2) Information or data which is published or otherwise subsequently becomes part of the public domain through no fault of the Contractor;
 - (3) Information or data which the Contractor can demonstrate was already in its possession at the time of receipt thereof; or

- (4) Information or data which the Contractor can demonstrate was received by it from a third party who did not require the Contractor to treat it in confidence.
- (b) The Contractor agrees (1) to enter into an agreement, identical in all material respects to the requirements of paragraph (a) above, with each entity supplying such confidential or proprietary information or data to the Contractor under this contract and (2) to supply a copy of such agreement to the Contracting Officer. Upon request of the Contracting Officer, the Contractor shall furnish the Government with reports which specify any information or data received as confidential or proprietary and which identify the entity or entities who supplied the Contractor with such information or data.
- (c) The Contractor shall obtain the written agreement of each employee permitted access to or furnished with confidential or proprietary business, technical, or financial information or data, whereby the employee agrees that such information or data which the Contractor is obligated to treat in confidence will not be discussed, divulged or disclosed except to those persons within the Contractor's organization directly concerned with the performance of this contract or to Government representatives. Notwithstanding the foregoing Contractor-employee agreement, upon request of the Contracting Officer, the Contractor agrees to obtain from each employee a confidentiality agreement acceptable to the Contracting Officer.
- (d) This clause shall be included in any subcontract under which there is a requirement or there becomes a requirement that the subcontractor be given access to or be furnished with confidential or proprietary business, technical, or financial information or data.

H.011 REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF BIDDERS/OFFERORS (MAY 1996)

The Representations, Certifications, and Other Statements of Bidders/Offerors, dated ***, for this contract are hereby incorporated by reference.

H.018 AUTOMATIC DATA PROCESSING EQUIPMENT (ADPE) USAGE (MAY 1996)

Requirements for ADPE which were not included in the Contractor's original proposal may not be acquired (leased or purchased) without the prior written consent of the Contracting Officer. Whenever Contracting Officer written consent is required, the Contractor will furnish

to the Contracting Officer information concerning the need for and selection of such ADPE, the specific make(s) and model(s), and the lease vs. purchase determination.

H.019 AUTOMATIC DATA PROCESSING EQUIPMENT (ADPE) LEASING (MAY 1996)

- (a) If the Contractor leases ADPE for use under this contract, the Contractor shall include a provision in the rental contract stating that the Government shall have the unilateral right to exercise any purchase option under the rental contract between the Contractor and the ADPE vendor and to realize any other benefits earned through rental payments.
- (b) The Contractor shall furnish a copy of the rental contract to the Contracting Officer.

H.020 LIMITATION ON PAYMENT FOR OVERTIME PREMIUMS - PHASE II/III

Pursuant to paragraph (a) of the clause entitled "Payment for Overtime Premiums" (FAR 52.222-2) listed in Part II, Section I, Subsection I Contract Clauses (DOE List 304), the use of overtime is authorized under this contract if the overtime premium cost does not exceed \$ ____.

H.027 RIGHTS TO PROPOSAL DATA (TECHNICAL) (MAY 1996)

Pursuant to the clause listed in Part II, Section I, Subsection I Contract Clauses (DOE List 304) entitled "Rights to Proposal Data (Technical)" (FAR 52.227-23), the following is inserted therein:

"... pages _____ ***

"... proposal dated _____ ***"

H.036 NOTICE REGARDING THE PURCHASE OF AMERICAN-MADE EQUIPMENT
AND PRODUCTS - SENSE OF CONGRESS (DEC 1997)

It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available under this award should be American-made.

H.037 PRECIOUS METALS INVENTORY (MAR 1998)

Contractors generating inventory containing precious metals shall identify, inventory, and report such items to the Contracting Officer identified in Clause G.002 on an annual basis in accordance with Attachment II, Reporting Requirements Checklist. This requirement applies to precious metals in any form, including shapes, scrap, or radioactively contaminated.

H.038 PHASE II/III PREPARATION INSTRUCTIONS AND EVALUATION CRITERIA

Section L, INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS, and Section M, EVALUATION FACTORS FOR AWARD, will be made an attachment to the Phase I contract.

I.005 SENSITIVE FOREIGN NATIONS CONTROLS (MAY 1996)

- (a) In connection with the contract activities, the Contractor agrees to comply with the requirements set forth in the attachment entitled, "Sensitive Foreign Nations Controls" relating to the countries listed therein. From time to time, by written notice to the Contractor, DOE shall have the right to change the listings of countries in the attachment upon a determination by DOE that such change is in conformance with national policy. The Contractor shall have the right to terminate its performance under this contract upon at least 60 days prior written notice to DOE if the Contractor determines that it is unable, without substantially interfering with its policies or without adversely affecting its performance, to continue performance of the work under this contract as a result of a change in the attachment made by DOE pursuant to the preceding sentence. If the Contractor elects to terminate performance, the provisions of this contract respecting termination for the convenience of the Government shall apply.
- (b) The provisions of this clause shall be included in any subcontracts.

I.047 FAR 52.227-14 RIGHTS IN DATA - GENERAL (JUN 1987) - ALTERNATE II (MODIFIED) (JUN 1987)

The following subparagraph (g)(2) is hereby inserted in the clause, FAR 52.227-14 RIGHTS IN DATA - GENERAL WITH ALTERNATE V (JUN 1987), listed in Part II, Section I, Subsection I Contract Clauses (DOE List 304), and shall become applicable automatically if the Contracting Officer determines it is necessary to obtain the delivery of limited rights data:

- "(g)(2) Notwithstanding subparagraph (g)(1) of this clause, the contract may identify and specify the delivery of limited rights data, or the Contracting Officer may require by written request the delivery of limited rights data that has been withheld or would otherwise be withholdable. If delivery of such data is so required, the Contractor may affix the following "Limited Rights Notice" to the data and the Government will thereafter treat the data, subject to the provisions of paragraphs (e) and (f) of this clause, in accordance with such Notice:

LIMITED RIGHTS NOTICE (JUN 1987)

- (a) These data are submitted with limited rights under Government Contract No. _____ (and subcontract _____, if appropriate). These data may be reproduced and used by the Government with the express limitation that they will not, without written permission of the Contractor, be used for purposes of manufacture nor disclosed outside the Government; except that the Government may

disclose these data outside the Government for the following purposes, if any, provided that the Government makes such disclosure subject to prohibition against further use and disclosure:

- (1) Use, except for manufacture, by Government support service contractors.
 - (2) Evaluation by nongovernment evaluators.
 - (3) Use by other contractors participating in the Government program of which the specific contract is a part, for information and use in connection with the work performed under each contract.
 - (4) Emergency repair or overhaul work.
 - (5) Release to a foreign government, or instrumentality thereof, as the interest of the United States Government may require, for information or evaluation, or for emergency repair or overhaul work by such government.
- (b) The technical data submitted under this Notice may have been developed, in whole or in part, under previous contracts or grants and may be subject to a license(s) for the benefit of the U.S. Government. Accordingly, the Department of Energy, by accepting delivery of this data, does not intend to waive any rights and/or license(s) which it may otherwise be entitled and the Government shall not be prevented at any time from contesting the enforceability, validity, or scope of this restrictive Notice.
- (c) This Notice shall be marked on any reproduction of these data, in whole or in part."

I.104 DEAR 952.204-74 FOREIGN OWNERSHIP, CONTROL, OR INFLUENCE OVER CONTRACTOR (DEVIATION) (APR 1999)

- (a) For purposes of this clause, subcontractor means any subcontractor at any tier and the term "contracting officer" shall mean DOE contracting officer. When this clause is included in a subcontract, the term "contractor" shall mean subcontractor and the term "contract" shall mean subcontract.
- (b) The contractor shall immediately provide the contracting officer written notice of any changes in the extent and nature of FOCI over the contractor which would affect the

information provided in the Certificate Pertaining to Foreign Interests and its supporting data. Further, notice of changes in ownership or control which are required to be reported to the Securities and Exchange Commission, the Federal Trade Commission, or the Department of Justice shall also be furnished concurrently to the contracting officer.

- (c) In those cases where a contractor has changes involving FOCI, the DOE must determine whether the changes will pose an undue risk to the common defense and security. In making this determination, the Department shall consider proposals made by the contractor to avoid or mitigate foreign influences.
- (d) If the contracting officer at any time determines that the Contractor is, or is potentially, subject to FOCI, the contractor shall comply with such instructions as the contracting officer shall provide in writing to safeguard any classified information or special nuclear material.
- (e) The contractor agrees to insert terms that conform substantially to the language of this clause including this paragraph (e) in all subcontracts under this contract that will require access authorizations for access to classified information or special nuclear material. Additionally, the contractor shall require such subcontractors to submit a completed SF 328 to the DOE Office of Safeguards and Security (marked to identify the applicable prime (contract)). Such subcontracts or purchase orders shall not be awarded until the contractor is notified that the proposed subcontractors have been cleared. Information to be provided by a subcontractor pursuant to this clause may be submitted directly to the contracting officer.
- (f) Information submitted by the contractor or any affected subcontractor as required pursuant to this clause shall be treated by DOE, to the extent permitted by law, as business or financial information submitted in confidence to be used solely for purposes of evaluating FOCI.
- (g) The requirements of this clause are in addition to the requirement that a contractor obtain and retain the security clearances required by the contract. This clause shall not operate as a limitation on DOE's rights, including its rights to terminate this contract.
- (h) The contracting officer may terminate this contract for default either if the contractor fails to meet obligations imposed by this clause, e.g., provide the information required by this clause, comply with the contracting officer's instructions about safeguarding classified information, or make this clause applicable to subcontractors, or if, in the contracting officer's judgment, the contractor creates an FOCI situation in order to avoid performance or a termination for default. The contracting officer may terminate this contract for convenience if the contractor becomes subject to FOCI and, for reasons

other than avoidance of performance of the contract, cannot, or chooses not to, avoid or mitigate the FOCI problem.

I.110 QUALITY ASSURANCE (MAY 1996)

- (a) The Contractor shall establish, implement, and maintain a quality assurance program meeting the requirements of ANSI/ASME NQA-1 "Quality Assurance Program Requirements for Nuclear Facilities" (1983 edition and addenda thereto), unless otherwise specified in this contract. The extent to which NQA-1 applies is dependent upon the nature and scope of work to be performed, and the relative importance of the items or services being produced, as determined by the Contractor and subject to review and approval by the DOE Oakland Operations Office or as otherwise specified in this contract.
- (b) The quality assurance program, including procedures, processes, and products, shall be documented and subject to review by the Contracting Officer or his designated representative. The Contracting Officer may furnish written notice of the acceptability of the Contractor's quality assurance program.
- (c) All supplies and services under the contract, whether manufactured or performed within the Contractor's facility or at any other source, shall be controlled at all points necessary to assure conformance with contractual requirements. The Contractor is totally responsible for all supplies and services provided under this contract. Government inspection shall not replace Contractor inspection or otherwise relieve the Contractor of his responsibility to furnish an acceptable product.

REPRESENTATIONS AND CERTIFICATIONS

K.001 REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF
BIDDERS/OFFERORS (SEP 1997)

- (a) Attached to this solicitation (see Part III - Section J for identification of the attachment) is a "Representations, Certifications, and Other Statements of Bidders/Offerors" package which is to be completed in accordance with its instructions and included in each copy of Volume I of your proposal.
- (b) In connection with FAR 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions (APR 1991) (DEVIATION), a copy of the disclosure form referenced in paragraph (b)(2) of FAR 52.203-11 is attached to this solicitation (see Part III - Section J for identification of the attachment). This attachment consists of the following three pages:
 - (1) First Page - Disclosure of Lobbying Activities (OMB Standard Form - LLL).
 - (2) Second Page - Instructions for Completion of OMB Standard Form - LLL.
 - (3) Third Page - Continuation Sheet (OMB Standard Form - LLL-A).

If required pursuant to paragraph (b)(2) of FAR 52.203-11, the disclosure form must be completed and submitted with the "Representations, Certifications, and Other Statements of Bidders/Offerors" package in each copy of Volume I of your proposal.

SECTION L

INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS

L.001 CONSECUTIVE NUMBERING (MAY 1996)

Due to automated procedures employed in formulating this document, provisions contained within it may not always be consecutively numbered.

L.002 CONTENT OF RESULTING CONTRACT (MAY 1996)

Any contract awarded as a result of this solicitation will contain PART I - The Schedule, PART II - Contract Clauses, and PART III, Section J - List of Attachments. Blank areas appearing in these sections, indicated by "****" will be completed during or after negotiations.

L.003 SOLICITATION NUMBER (MAY 1996)

DE-RP03-00SF22042

L.004 DESCRIPTION OF WORK BEING ACQUIRED (MAY 1996)

System Integration of a Stirling Radioisotope Power System (SRPS)

L.005 DATE OF SOLICITATION ISSUANCE (MAY 1996)

May 19, 2000

L.006 DOE ISSUING OFFICE (MAY 1996)

U.S. Department of Energy
DOE Oakland Operations Office
Contracts, Acquisition and Property Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208

Point of Contact: Wayne Bryan

Telephone: (510) 637-1712
Facsimile: (510) 637-2004

L.007 TIME, DATE, AND PLACE PROPOSALS ARE DUE

(a) Mailed proposals shall be marked as follows:

FROM: _____

MAIL TO:

U. S. Department of Energy
DOE Oakland Operations Office
Mail and Records, Room 700N
1301 Clay Street
Oakland, CA 94612-5208
ATTN: Wayne Bryan, CAPD
SOLICITATION NO. DE-RP03-00SF22042

NOTICE TO DOE MAIL ROOM: DO NOT OPEN; THIS IS A PROPOSAL UNDER THE ABOVE IDENTIFIED SOLICITATION.

(b) Handcarried proposals should be delivered directly to Mail and Records, Room 700N, on the 7th floor of 1301 Clay Street, Oakland, California and shall be marked as follows:

FROM: _____

HANDCARRY TO:

U. S. Department of Energy
DOE Oakland Operations Office
Mail and Records, Room 700N
1301 Clay Street
Oakland, CA 94612-5208
ATTN: Wayne Bryran, CAPD
SOLICITATION NO. DE-RP03-00SF22042

NOTICE TO DOE MAIL ROOM: DO NOT OPEN; THIS IS A PROPOSAL UNDER THE ABOVE IDENTIFIED SOLICITATION.

- (c) Phase I proposals must be received by NO LATER THAN 3:00 P.M. local prevailing time on June 26, 2000.
- (d) Phase II/III proposals must be received NO LATER THAN 3:00 P.M. local prevailing time

_____.

L.008 SIC CODE AND SMALL BUSINESS SIZE STANDARD (MAY 1996)

- (a) The standard industrial classification (SIC) code is 3764.
- (b) (1) The small business size standard is 1000.
- (2) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

L.010 FAR 52.216-1 TYPE OF CONTRACT

The Government contemplates award of a firm fixed price contract(s) not to exceed \$650,000 each for Phase I, resulting from this solicitation. The Phase II/III effort will be awarded on a cost reimbursement plus fixed fee basis.

L.011 OFFER ACCEPTANCE PERIOD (MAY 1996)

The minimum offer acceptance period is 120 days after the required date for receipt of proposals for Phase I and Phase II/II.

L.012 NUMBER OF AWARDS

It is anticipated that there will be multiple award(s) resulting from this solicitation for the Phase I effort. If a decision is made to continue with the Phase II/III effort only one (1) of the contractors selected for the Phase I effort will be selected to carry out the Phase II/III effort.

L.013 AN EQUAL RIGHTS NOTE (MAY 1996)

Wherever in the solicitation or contract "man," "men," or their related pronouns may appear, either as words or as parts of words (and other than with obvious reference to named male individuals), they have been used for literary purposes and are meant in their generic sense (i.e., to include all humankind - both female and male sexes).

L.015 FAR 52.215-1 INSTRUCTIONS TO OFFERORS - COMPETITIVE ACQUISITION (FEB 2000)

(a) *Definitions.* As used in this provision –

Discussions are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

In writing or written means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

Proposal modification is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

Proposal revision is a change to a proposal made after the solicitation closing date, at

the request of or as allowed by a Contracting Officer as the result of negotiations.

Time, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

- (b) *Amendments to solicitations.* If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).
- (c) *Submission, modification, revision, and withdrawal of proposals.*
 - (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.
 - (2) The first page of the proposal must show –
 - (i) The solicitation number;
 - (ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);
 - (iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;
 - (iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and
 - (v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.
 - (3) *Submission, modification, revision, and withdrawal of proposals.*

- (i) Offerors are responsible for submitting proposals, and any modification, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.
- (ii)
 - (A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and –
 - (1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or
 - (2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or
 - (3) It is the only proposal received.
 - (B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.
- (iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.
- (iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
- (v) Proposals may be withdrawn by written notice received at any time before

award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

- (4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.
- (5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.
- (6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.
- (7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.
- (8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.
- (d) *Offer expiration date.* Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).
- (e) *Restriction on disclosure and use of data.* Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall –
 - (1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed -- in whole or in part -- for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of -- or in connection with -- the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source

without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

- (2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) *Contract award.*

- (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.
- (2) The Government may reject any or all proposals if such action is in the Government's interest.
- (3) The Government may waive informalities and minor irregularities in proposals received.
- (4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
- (5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.
- (6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.
- (7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

- (8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.
- (9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.
- (10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.
- (11) The Government may disclose the following information in postaward debriefings to other offerors:
 - (i) The overall evaluated cost or price and technical rating of the successful offeror;
 - (ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;
 - (iii) A summary of the rationale for award; and
 - (iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

Alternate I (Oct 1997). As prescribed in 15.209(a)(1), substitute the following paragraph (f)(4) for paragraph (f)(4) of the basic provision:

- (f) (4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

Alternate II (Oct 1997). As prescribed in 15.209(a)(2), add a paragraph (c)(9) substantially the same as the following to the basic clause:

- (9) Offerors may submit proposals that depart from stated requirements. Such proposals shall clearly identify why the acceptance of the proposal would be advantageous to the Government. Any deviations from the terms and conditions of the solicitation, as well as the comparative advantage to the Government, shall be clearly identified and explicitly defined. The Government reserves the right to amend the solicitation to allow all offerors an opportunity to submit revised proposals based on the revised requirements.

L.016 INTENTION TO PROPOSE (MAY 1996)

To enable us to update our Source Lists, please complete the information in the Intention to Propose Form attached to this solicitation (see Part III - Section J for identification of the attachment) and mail to the address shown on the form by the earliest practical date.

L.017 FALSE STATEMENTS (MAY 1996)

Proposals must set forth full, accurate, and complete information as required by this solicitation (including attachments). The penalty for making false statements in proposals is prescribed in 18 U.S.C. 1001.

L.018 EXPENSES RELATED TO OFFEROR SUBMISSIONS (MAY 1996)

This solicitation does not commit the Government to pay any costs incurred in the submission of any proposal or in making necessary studies or designs for the preparation thereof or to acquire or contract for any services.

L.023 METHOD OF AMENDING THE SOLICITATION (MAY 1996)

The only method by which any term of this solicitation may be amended is by an express, formal amendment to the solicitation generated by the issuing office. No other communication made at any scheduled preproposal conference or subsequent discussions, whether oral or in writing, will amend or supersede the terms of this solicitation. Receipt of an amendment to a solicitation by an offeror must be acknowledged in accordance with the solicitation provision "Amendments to Solicitations."

L.025 PREPROPOSAL CONFERENCE - NOT CONTEMPLATED (MAY 1996)

A preproposal conference for this solicitation is not contemplated.

L.032 CLASSIFIED INFORMATION (MAY 1996)

Performance under the proposed contract may involve access to classified information. If access to classified information is required, the offeror shall be required to obtain necessary security clearances for personnel who will have access to classified information.

L.033 NOTICE OF LABOR PROVISIONS (MAY 1996)

- (a) Listing of Employment Openings. Offerors should note that this solicitation incorporates by reference certain clauses requiring the listing of employment openings with the local office of the State employment service system where a contract award is for \$10,000 or more (see Part II, Section I, Subsection I Contract Clauses (DOE List 304): "Affirmative Action for Special Disabled and Vietnam Era Veterans" (FAR 52.222-35) and "Affirmative Action for Handicapped Workers" (FAR 52.222-36)).
- (b) Information from Department of Labor. General information regarding the requirements of the Walsh-Healey Public Contracts Act (41 U.S.C. 35-45), the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333), and the Service Contract Act of 1965, as amended (41 U.S.C. 351, et seq.) may be obtained from the Department of Labor, Washington, D.C. 20310, or from any regional office of that agency. Requests for information should include the solicitation number, the name and address of the issuing agency, and a description of the supplies or services.

L.034 RESPONSIBLE PROSPECTIVE CONTRACTORS (MAY 1996)

- (a) The general and additional minimum standards for responsible prospective contractors set forth at 48 CFR 9.1 and 48 CFR 909.1 apply.
- (b) DOE may (1) conduct preaward surveys in accordance with 48 CFR 9.106, (2) solicit from available sources relevant information concerning the offeror's record of past performance, and (3) use such information in making determinations of prospective contractor responsibility.

L.036 INFORMATION OF AWARD (MAY 1996)

Written notice to unsuccessful offerors and contract award information will be promptly released in accordance with DOE regulations applicable to negotiated acquisitions.

L.037 DISPOSITION OF PROPOSALS (MAY 1996)

Proposals will not be returned (except for timely withdrawals).

L.038 DISPOSITION OF SOLICITATION DOCUMENTS (MAY 1996)

Drawings, specifications, and other documents supplied with the solicitation may be retained by the offeror (unless there is a requirement for a document to be completed and returned as a part of the offer).

L.039 ALTERNATE PROPOSAL INFORMATION - NONE (MAY 1996)

Alternate proposals are not solicited, are not desired, and shall not be evaluated.

L.041 PROPOSAL PREPARATION INSTRUCTIONS - GENERAL

- (a) General. Proposals are expected to be prepared in accordance with this solicitation provision L.041. To aid in evaluation, proposals shall be clearly and concisely written as well as being neat, indexed (cross-indexed as appropriate), and logically assembled. All pages of each proposal volume shall be appropriately numbered and identified, to the extent practicable, with the name of the offeror, the date, and the solicitation number.
- (b) Arrangement of Overall Proposal. The overall proposal shall consist of physically separate volumes, individually entitled as stated below. The required number of copies of each proposal volume is also shown below.

Proposal Volume		Total Copies
Number	Title	Required

		Phase I	Phase II/III
I	Offer and Other Documents	Original plus 4	Original plus 4
II	Technical Proposal	Original plus 8	Original plus 8
III	Business/Management Proposal	N/A	Original plus 4
IV	Cost Proposal	Original plus 4	Original plus 4
V	Environmental Data and Analysis	N/A	Original plus 4

L.042 PROPOSAL PREPARATION INSTRUCTIONS - VOLUME I, OFFER, QUALIFICATION STATEMENT, AND OTHER DOCUMENTS - ALTERNATE I

- (a) General. Volume I, Offer, Qualification Statement, and Other Documents, consists of the actual offer to enter into a contract to perform the desired work. It also includes required representations and certifications, a qualification statement, additional information to be furnished, exceptions and deviations to the model contract, and a summary of exceptions and deviations in other volumes of the proposal. Although Volume I should incorporate the other volumes of the proposal by reference, it should not physically include them.
- (b) Format and Content. Volume I shall include the following documents or other information (in the order listed):
- (1) Standard Form (SF) 33, Solicitation, Offer and Award, or Optional Form (OF) 308, Solicitation and Offer - Negotiated Acquisition, whichever applies, fully executed in Offer section.
 - (2) Qualification Statement.
 - (3) Representations, Certifications, and Other Statements of Bidders/Offerors.
 - (4) Financial Conditions and Capability.

- (5) Additional Information to be Furnished.
- (6) Exceptions and Deviations to the Model Contract.
- (7) Summary of Exceptions and Deviations in Other Volumes of the Proposal.
- (c) Standard Form 33 or Optional Form 308.
 - (1) Use of the Form. The SF 33 or OF 308 is to be executed fully and used as the cover sheet (or first page) of each copy of Volume I.
 - (2) Acceptance Period. The acceptance period entered on the SF 33 or OF 308 by the offeror shall not be less than that prescribed in the solicitation (Part IV - Section L, Clause L.011) which shall apply if no other period is offered.
 - (3) Signature Authority. The person signing the SF 33 or OF 308 must have the authority to commit the offeror to all of the provisions of the proposal.
- (d) Qualification Statement.
 - (1) Address each of the Qualification Criteria listed in the solicitation (Part IV - Section M, Clause M.002), providing explanations to demonstrate clearly how the requirements of each of the Qualification Criteria are satisfied. As appropriate, such explanations may include cross-references to supporting information contained in other volumes of the proposal.
 - (2) These explanations should be sufficient enough to enable the DOE to make a determination as to whether or not the offeror meets each of the Qualification Criteria. If a determination is made that the offeror does not meet each of the Qualification Criteria, the proposal shall not be evaluated in accordance with the Evaluation Criteria.
- (e) Representations, Certifications, and Other Statements of Bidders/Offerors. A one-part "Representations, Certifications, and Other Statements of Bidders/Offerors" package is to be completed in accordance with its instructions and included in each copy of Volume I (see Part IV - Section K, Clause K.001 for more explanation and Part III - Section J for identification of the attachment).
- (f) Financial Condition and Capability.

- (i) Provide a current balance sheet, a profit and loss statement for all quarters reported during the offeror's current fiscal year, and an audited set of financial statements for each of the last three (3) offeror's fiscal years.
 - (ii) Describe fully any assets other than cash, accounts receivable, land, buildings, and equipment carried on the above balance sheet.
 - (iii) Describe fully the impact of this project on the offeror's organization and any contingency, limitation, and/or conditions affecting availability of funds for this project.
- (g) Additional Information to be Furnished.
- (1) Remittance Address. If the offeror's remittance address is different from the address shown on the SF 33 or OF 308, such address shall be furnished, including ZIP Code.
 - (2) Government Property.
 - (i) Unless otherwise stated, the offeror is expected to furnish all property (including, but not limited to facilities, equipment, special tooling, and material) necessary for the performance of the work defined in this solicitation. Government property as used herein means all Government-furnished property, together with all property acquired by the Contractor for which the title vests in the Government.
 - (ii) Indicate in this Volume I whether or not the proposal is based on the use of Government property. If the offeror proposes to use Government property to perform the work (whether or not such property is presently in the possession of the offeror), provide the particulars in the Cost Proposal volume, along with a statement signed by an executive corporate official (or the equivalent if a non-corporate entity) which:
 - (A) Expresses the offeror's unwillingness or financial inability to acquire the necessary property with the offeror's resources; or
 - (B) Explains that time will not allow the offeror to make the necessary arrangements to obtain timely delivery of such property to meet the Government's requirements even though the offeror is willing and financially able to acquire the property. Such an explanation is to include cost benefit studies that treat lease versus buy versus use of the Government property. In this case, existing Government property,

if available, may be provided until the property acquired by the offeror is delivered, installed, etc.

- (iii) In the event that the offeror proposes to use Government-furnished property to perform the work, the Government shall include in its evaluation of the proposal the cost of providing Government-furnished property including acquisition, transportation, installation, removal and disposition.
 - (iv) If the offeror intends to fabricate or purchase any equipment for the performance of the work herein, the offeror shall identify these costs and equipment in the Cost Proposal volume.
 - (v) As appropriate, describe existing information technology that will be used with any information technology to be acquired and identify whether the existing information technology is Year 2000 compliant.
 - (vi) Notwithstanding the above, the Government reserves the right under any resulting contract to furnish items of equipment, materials, supplies or facilities.
- (3) Organizational Conflicts of Interest Disclosure. If DEAR 952.209-8, Organizational Conflicts of Interest Disclosure - Advisory and Assistance Services (JUN 1997), of the one-part "Representations, Certifications, and Other Statements of Bidders/Offerors" package discussed in paragraph (e) above must be completed, the offeror shall complete the applicable section(s) of the attachment to this solicitation entitled "Organizational Conflicts of Interest" (see Part IV - Section K, Clause K.001 for more explanation and Part III - Section J for identification of the attachment). The "Organizational Conflicts of Interest" attachment should be included with the one-part "Representations, Certifications, and Other Statements of Bidders/Offerors" package in each copy of Volume I.
- (h) Exceptions and Deviations to the Model Contract.
- (1) The offeror shall identify and explain any exceptions taken, deviations made, or conditional assumptions made with respect to the model contract (including the reporting requirements and any request for advance waiver of patent rights), the representations and certifications, and the requirements of this Volume I.
 - (2) Any exceptions, etc., taken must contain sufficient amplification and justification to permit evaluation. The benefit to the Government shall be explained for each exception taken. Such exceptions will not, of themselves, automatically cause a proposal to be deemed unacceptable. However, a large number of exceptions,

or one or more significant exceptions not providing benefit to the Government, may result in rejection of the proposal as unacceptable.

- (i) Summary of Exceptions and Deviations in Other Volumes of the Proposal. The offeror shall summarize each technical, business/management, cost, or other exception taken elsewhere and provide a specific cross-reference to its full discussion.

L.043 PROPOSAL PREPARATION INSTRUCTIONS - VOLUME II, TECHNICAL PROPOSAL

(a) General.

- (1) Volume II, Technical Proposal, consists of the offeror's description of the technical aspects of the acquisition and an outline of the offeror's technical capabilities, providing a straightforward, concise delineation of what it is the offeror will do to satisfy the requirements of the Statement of Work (SOW). The proposal shall be specific and complete. The proposal shall be practical and be prepared simply and economically.
- (2) In order that the Technical Proposal may be evaluated strictly on the merit of the material submitted, no cost information is to be included in the Technical Proposal. Estimated manhours for each proposed labor category shall be provided in the Technical Summary section of Volume II (see paragraph (c) below) with no indication as to the cost of the manhours.
- (3) The proposal shall contain an outline of the proposed lines of investigation, the method of approach to the problem(s), any recommended changes to the SOW, the phases or steps into which this project might logically be divided, the estimated time required to complete each phase or step, and any other information considered pertinent to the problem(s).
- (4) The proposal shall not merely offer to perform work in accordance with the SOW but shall outline the actual work proposed as specifically as practical. The SOW reflects the problems and objectives of the program under consideration; therefore, repeating the SOW without sufficient elaboration will not be acceptable.

- (b) Format and Content. Volume II shall include the following sections (in the order listed) (the major headings may be subdivided or supplemented by the offeror as appropriate):

- (1) Table of Contents.
 - (2) List of Tables and Figures.
 - (3) Technical Summary.
 - (4) Technical Discussion.
 - (5) Other Pertinent Information.
 - (6) Technical Exceptions and Deviations.
- (c) Technical Summary. This section shall contain an outline of the difficulties or the problem(s) and the proposed general approach(es) toward solving them. Also, this section shall contain the estimated manhours for each proposed labor category (see paragraph (a)(2) above). The estimated manhours (absent any cost information) shall be provided in the same level of detail (e.g., by time period and/or by Work Breakdown Structure (WBS) element) required in the Cost Proposal (see Clause L.045 (b)(1)).

Phase I Proposal

- (d) Technical Discussion. This section shall contain the major portion of the Technical Proposal. It should clearly address each of the Technical Evaluation Criteria as set forth in Section M, including the listed sub-criteria, and shall be divided into sections corresponding to the order of the Technical Evaluation Criteria. Each criterion must be fully responded to, and the offeror's responses should be presented in as much detail as practical. Each area of the Technical Discussion section of the offeror's proposal must be clearly marked to indicate the specific criterion being addressed. Additional guidance is provided below for each Technical Criterion:

- (1) Criterion 1 System Integration Capability:

Provide a narrative that describes the extent to which the offeror has the capability and experience to perform the function of a system integrator for a complex space radioisotope power system in each of the task areas and subtasks areas required by the Statement of Work, Section J, Attachment I.

- (2) Criterion 2 Past Performance on Contracts of Similar Technical Complexity:

The offeror shall submit the following information:

A list of contracts or subcontracts completed or currently in process within the past 3 years that are of similar complexity. Contracts or subcontracts listed may

include those entered into by the federal, state and local governments and commercial customers. If an offeror does not have a list of contracts or subcontracts that are of similar complexity, the offeror may include in the list, contracts or subcontracts that are not similar. Offerors that are newly formed entities without prior contracts should list contracts and subcontracts for all principal personnel and previous companies the entity may have been involved with. Include the following information for each contract or subcontract that is or is not for similar services:

1. Name of contracting activity
2. Contract number
3. Contract type
4. Total contract value
5. Contract work
6. Contracting activity, Contracting Officer and telephone number
7. Contracting activity, Program Manager and telephone number
8. Administrative Contracting Officer, if different from line 6 above, and telephone number
9. List of major subcontractors

References will be contacted regarding offeror's past performance on similar contracts for evaluation using the criterion listed in Section M.

The "Client Authorization Letter" in Section J is provided as an example and may be used at the option of the offeror. It is suggested that the offeror contact its clients in some fashion with regard to this procurement and authorize the client authority to release such past performance data.

(3) Criterion 3 Design Approach of the SRPS

Describe the design approach for generating design concepts that are being considered for the formal conceptual design in Phase I.

(4) Criterion 4 Technical Approach of the SRPS

Describe the technical approach and practicality of the design approach in meeting the SRPS requirements and the Outer Planet/Solar Probe mission goals especially with regard to:

- Initial trades for system performance and mass
- SRPS performance estimates
- Stirling interface definitions
- SRPS integration with the spacecraft

- Identification/reduction of technical risks
- Technology tradeoffs

Phase II/III Proposal

- (d) Technical Discussion. This section shall contain the major portion of the Technical Proposal. It should clearly address each of the Technical Evaluation Criteria as set forth in Section M, including the listed sub-criteria, and shall be divided into sections corresponding to the order of the Technical Evaluation Criteria. Each criterion must be fully responded to, and the offeror's responses should be presented in as much detail as practical. Simply stating that the offeror understands and will provide the requirements is not adequate. Similarly, phrases such as "standard procedures will be employed" or "well-known technique will be used" are also inadequate. Each area of the Technical Discussion section of the offeror's proposal must be clearly marked to indicate the specific criterion being addressed. Additional guidance is provided below for each Technical Criterion:

(1) Criterion 1 Understanding of Requirements and Soundness of Technical Approach

1.A Extent of how the design approach of the Stirling Radioisotope Power System (SRPS) conducts system tradeoffs to meet mission requirements.

Describe the preliminary and final design approach for the SRPS, identifying and describing the resolution for design issues such as system performance and mass, manufacturing, operational ease and minimal personnel exposure, quality, reliability, and accidental failure scenarios. Describe the testing proposed to demonstrate the reliability of the entire SRPS including the Stirling convertor.

1.B Extent of understanding of issues related to the materials and manufacturing methods used in the Stirling convertor as it applies to the SRPS.

Identify the technical issues such as materials and manufacturability related to the development of the Stirling convertor and the proposed method for resolving these issues. Provide detailed plans and supporting scientific logic for: integration of the Stirling convertor into a complete SRPS using a GPHS module(s) for the heat source; optimization of conversion efficiency and mass; SRPS life and reliability; obtaining acceptable process yields and quality, and performance prediction using modeling and/or life demonstration testing.

1.C Adequacy of the plan to manufacture the SRPS using a Stirling convertor (known as the 55 We Technology Demonstration Convertor (TDC)) developed under DOE contract with Stirling Technology Company.

Provide a flowchart of manufacturing processes, and assembly and test activities for the Stirling convertor components and the SRPS.

A Fabrication Plan, which should be no more than twenty pages, excluding diagrams and figures, shall be included in the proposal. The fabrication plan should include a logic diagram showing the time segments for procurement or upgrade of manufacturing, assembly, and test facilities (e.g. procurement, acceptance, installation, operator training). The timely availability of facilities and all key items of equipment required to execute all elements of the Statement of Work shall be documented. The percentage of normal single shift time required for each major item shall be cited. Other Government contracts or other activities sharing use of the facilities and equipment shall be listed with their projected levels of activity. If dissimilar materials are being processed in these facilities, please identify and address any cross contamination problem.

The Fabrication Plan should also include a description of the production facilities available, to be modified, or to be constructed to carry out the activities in the Statement of Work. Identify what facilities exist, what modifications are required, what new facilities are required, and the schedules for modification/construction and related procurements. Test equipment and facilities for production, safety, and product acceptance testing should also be described.

Describe the manufacturing disciplines, plans and controls used to convert design packages to manufacturing instructions, to schedule work through the shop and to control the manufacture of hardware.

1.D Extent of knowledge of the safety analysis, nuclear risk assessment methodologies, and launch approval process for payloads which include nuclear material.

Describe the methodology, analytical process and the analytical tools to be used for the analyses and how they are to be integrated to produce a nuclear risk assessment. Demonstrate knowledge of the launch approval process.

1.E Extent of knowledge of the integration process for space power systems.

Describe the tasks to be done for the systems integration of the power supply system with the spacecraft, launch vehicle, fueling process, and launch preparation process.

(2) Criterion 2 Organization and Personnel Qualifications

2.A Qualifications, availability, and commitment

Provide detailed information (resumes) for the principal individuals in project management, engineering, manufacturing, quality assurance, reliability, safety analysis, spacecraft integration, and technical management whom you consider are essential or highly important to the accomplishment of the Statement of Work. This information should include organizational job titles, education, technical experience, and management experience, including specific qualifications or experience as applicable to the work described in this RFP. Of particular importance is the documented background of work experience in areas of proposed assignment related to that required by the Statement of Work and how this experience will be used to support the project. State the nature and extent of the commitment for each of the principal personnel proposed (including commitment letter, if applicable), and state the percentage of time to be devoted to the contract by these personnel.

Discuss the availability and experience of technicians and other trained personnel who will manufacture hardware or operate and maintain the equipment and facilities. If such personnel are not presently available, describe the plans for obtaining their services at the times they will be needed.

Discuss the availability, qualifications and experience of the analysts who will perform nuclear risk assessments. Describe the access to and familiarity of the organization with the analytical tools that are required to perform the risk assessments. Describe the computational resources that will be used to perform the analyses.

Describe the extent of availability and general experience and qualifications of additional technical and management personnel resources available for assignment to possible vacancies created during the contract period as a result of retirements, resignations, or similar reasons.

Provide a matrix describing the experience of principal key personnel working together on other projects.

2.B The degree to which the proposal reflects an organizational structure that is consistent with the project objectives.

Provide a description of the project organizational structure and illustrate how it complements and is consistent with the project objectives.

Show how the project organization is linked to the company/division/corporate structure and how these elements provide support to the project.

Describe the project organization, using charts as appropriate. Describe each organizational unit, how it will function, and its roles and responsibilities. Describe the interrelationships, responsibilities and authorities of the organizational units. Discussion should demonstrate the effective management and organization of personnel to accomplish the work plan described above.

(3) Criterion 3 Project Management

3.A Adequacy of the Project Management Plan to accomplish the objectives in the Statement of Work while meeting the project schedule and budget.

Provide a Project Management Plan (PMP), which as a minimum demonstrates an acceptable plan to accomplish the Statement of Work objectives. The PMP shall include a description of the offeror-s approach to managing and organizing staff and work requirements and should be no more than twenty (20) pages, excluding figures and diagrams. The PMP should show the offeror-s understanding of the work to be accomplished and the ability to develop and implement an effective, workable approach to accomplishing the tasks set forth in the Statement of Work, to identify and resolve technical problems and uncertainties, to deliver the hardware, documents and support required, and recommend improvements to SRPS performance and recommend activities to increase timeliness and qualities of deliverables. Proposed man-hours for each Contract Work Breakdown Structure (CWBS) element should be shown for each fiscal year in which activities are proposed for that element and for the total of all fiscal years for that element. The PMP should show how program costs will be controlled and shall show innovative approaches to reduce program costs and schedule. The cost associated with the man-hours shall not be provided with the technical proposal.

- (e) Other Pertinent Information. This section shall contain any other pertinent information which will supplement or aid in the understanding and evaluation of the Technical Proposal.
- (f) Technical Exceptions and Deviations. This section shall identify and explain any exceptions or deviations taken or conditional assumptions made with respect to the technical requirements of the solicitation. Any exceptions, etc., taken must contain sufficient amplification and justification to permit evaluation. The benefit to the Government shall be explained for each exception taken. Such exceptions will not, of themselves, automatically cause a proposal to be deemed unacceptable. However, a large number of exceptions, or one or more significant exceptions not providing benefit to the Government, may result in rejection of the proposal as unacceptable.

L.044 PROPOSAL PREPARATION INSTRUCTIONS - VOLUME III - BUSINESS/
MANAGEMENT PROPOSAL - PHASE II/III

- (a) General. The Business/Management Proposal consists of the offeror's business and management approach to the work, addressing the business/management aspects of the acquisition, the resources the offeror will use, and how the offeror will use such resources. It should be specific and complete.
- (b) Format and Content. At a minimum, the Business/Management Proposal shall include the following sections (in the order listed):
 - (1) Table of Contents.
 - (2) List of Tables and Exhibits.
 - (3) Management Summary.
 - (4) Business/Management Discussion.
 - (5) Other Information.
 - (6) Exceptions and Deviations.
- (c) Management Summary. Briefly summarize the organizational elements involved in performing the work, their interrelationships, and their access to necessary resources. Also reference key management systems which are important in performing the work.
- (d) Business/Management Discussion. This section shall contain the major portion of the Business/Management Proposal. It should clearly present information adequate to fully evaluate each of the Business/Management Proposal Evaluation Criteria and subcriteria in the solicitation (Part IV -Section M). It should include the following:
 - 1. Criterion 1 Business/Management Organization.
 - 1.A Overall Management

Describe the overall management system to be used on the contract and the organization's overall management capabilities and resources (equipment, personnel, facilities and the ability to provide a synergistic team effort). Also, identify the qualifications, experience, and work assignment of proposed management personnel. Particular emphasis should be placed on how cost, schedule, and technical performance status

are determined, assessed, projected, reported and controlled through contract completion, on a company level.

Describe the company's method of cost management. As a minimum it shall include the method of cost tracking, reporting, and control on the management level. Describe incentive fee, award fee and cost target achievement history for previous contracts.

1.B Interface Capabilities

Describe and identify the systems in place for implementing Government procurement and subcontracting requirements. Also describe and identify procedures for tracking, monitoring and reporting government property; describe how estimates are made and costs and expenditures monitored.

The offeror shall specify the date of the last purchasing system review, name of the government activity who performed the review, the results of the review (approved/disapproved) and the dollar threshold in which advance notification by the Contracting Officer is required.

1.C Interest and Commitment of Corporate Management

Describe the relationship of this program to the overall company structure.

Describe the interest and commitment of Corporate Management to this project. Describe the method of prioritizing work and the priority placed by the corporate level on the proposed work. Provide the name and title of your firm's top corporate official who will be responsible for this effort. Describe this individual's participation in and contribution to the proposed contract operations.

1.D Cost Control Capabilities

Describe the system that will be used to track, monitor, report and control costs and the extent to which procedures are in place for notification of potential cost overruns and cost containment procedures for actual overruns.

2. Criterion 2 Subcontracting and Subcontract Management

This section shall describe the subcontract management system to be used under the proposed contract. Particular emphasis should be placed on procedures for source selection and how performance status is determined, assessed, and projected through subcontract completion.

2.A Subcontracting Plan

Provide a subcontracting plan, specific to this procurement, which identifies all subcontracting goals proposed for each phase of the effort and which complies fully with PL 95-507 and PL 100-656.

2.B Subcontracting Selection

Describe how proposed subcontractors (including suppliers) are selected. Describe the procedures for source selection (competitive and non-competitive). Describe the basis for selection and determination. Competitive basis should be utilized to the maximum practical extent consistent with the objectives and requirements of the solicitation. Competitive solicitation of proposed subcontractors shall be discussed as well as non-competitive selection of proposed subcontractors. Non-competitive selection of proposed subcontractors must be justified. Failure to select proposed subcontractors on a competitive basis may adversely affect the standing of the offeror unless it is demonstrated that competition is not feasible nor practical.

2.C Small and Disadvantaged Business Participation

Describe extent of proposed small and disadvantaged business participation or efforts which will be used to obtain such participation.

- (e) Other Information. This section shall contain any other pertinent information which will supplement or aid in the evaluation of the proposal.
- (f) Exceptions and Deviations. This section shall identify and explain any exceptions, deviations, or conditional assumptions taken with respect to the requirements of the solicitation relative to the Business/Management Proposal. Any exceptions, etc., taken must contain sufficient amplification and justification to permit evaluation. The benefit to the Government shall be explained for each exception taken. Such exceptions will not, of themselves, automatically cause a proposal to be deemed unacceptable. However, a large number of exceptions, or one or more significant exceptions not providing benefit to the Government, may result in rejection of the proposal as unacceptable.

L.045 PROPOSAL PREPARATION INSTRUCTIONS - COST PROPOSAL -
RESEARCH AND DEVELOPMENT (NOV 1997)

(a) General.

- (1) The Cost Proposal consists of the offeror's estimated cost and fee to perform the desired work as set forth in the Statement of Work. The proposal shall be accurate, complete, and well documented. Cost information contained in the Cost Proposal is not to be included in the Technical Proposal (Volume II) or any other proposal volume.
- (2) Identification. All forms, tables, and exhibits must be listed in the table of contents or index and must be clearly identified. All pages, including forms, tables, and exhibits, must be numbered.
- (3) Joint Venture/Teaming Arrangement. If a joint venture or teaming arrangement is proposed, the offeror shall clearly identify on the Contract Pricing Proposal Cover Sheet and/or supporting schedules which cost element(s) will be incurred by what participant.
- (4) Rounding. Final monetary extensions should be expressed in whole dollars.
- (5) Definitions. Federal Acquisition Regulation (FAR) Part 31, Contract Cost Principles and Procedures, shall be the guide to definition of the cost elements.
- (6) Certified Cost or Pricing Data. Offerors may be required to certify (in accordance with Pub. L. 87-653, as implemented by FAR 15.406-2) that the cost or pricing data submitted are accurate, complete and current. In such an event, the required format for the certification can be found in FAR 15.406-2. The executed certification must be presented to the Contracting Officer after negotiations are concluded and before award can be made. FAR 15.407-1 contains applicable procedures where it is subsequently found that defective cost or pricing data were submitted.

Any offeror required to submit the above certification shall be required (in accordance with FAR 15.404-3) to submit, or arrange for the submission of, accurate, complete, and current cost or pricing data from its prospective subcontractors.

Notwithstanding the above paragraphs, any successful offeror shall comply with applicable requirements of the "Subcontractor Cost or Pricing Data" clause of the executed contract.

(b) Format and Content.

(1) Section One - Cost-Related Exhibits:

The offeror shall submit the following cost-related exhibits in accordance with the instructions furnished for each such exhibit:

(i) Exhibit A - Contract Pricing Proposal Cover Sheet and Other Sub-Exhibits:

Exhibit A consists of the following sub-exhibits:

Exhibit A-1 Instructions for Submission of a Contract Pricing Proposal

Exhibit A-2 Guide to Preparation of Cost Element Detail

Exhibit A-3 DOE F 1332.6 Contract Facilities Capital and Cost of Money

Exhibit A-4 Instructions for DOE F 1332.6

Any Contractor or subcontractor that is required to submit cost or pricing data also shall obtain and analyze cost or pricing data before awarding any subcontract, purchase order, or modification expected to exceed the cost or pricing data threshold, unless an exception in 15.403-1(b) applies to that action.

(1) The Contractor shall submit, or cause to be submitted by the subcontractor(s), cost or pricing data to the Government for subcontracts that are the lower of either--

(i) \$10,000,000 or more; or

(ii) Both more than the pertinent cost or pricing data threshold and more than 10 percent of the prime contractor's proposed price, unless the Contracting Officer believes such submission is unnecessary.

- (2) The Contracting Officer may require the Contractor or subcontractor to submit to the Government (or cause submission of) subcontractor cost or pricing data below the thresholds in paragraph (1) that the Contracting Officer considers necessary for adequately pricing the prime contract.
- (3) Subcontractor cost or pricing data shall be submitted in the format provided in Table 15-2 of 15.408 or the alternate format specified in the solicitation.
- (4) Subcontractor cost or pricing data shall be current, accurate, and complete as of the date of price agreement, or, if applicable, an earlier date agreed upon by the parties and specified on the Contractor's Certificate of Current Cost or Pricing Data. The Contractor shall update subcontractor's data, as appropriate, during source selection and negotiations.
- (5) If there is more than one prospective subcontractor for any given work, the Contractor need only submit to the Government cost or pricing data for the prospective subcontractor most likely to receive the award.

The Contract Pricing Proposal Cover Sheet and the Cost Element Detail should be completed in accordance with the Exhibit A-2 instructions. A summary Contract Pricing Proposal Cover Sheet for the proposed total program shall be prepared. The Cost Element Detail must be submitted for each year of the proposed total program. If the proposed total program consists of an initial period of performance (one or more base years) and option years, then a separate Contract Pricing Proposal Cover Sheet and Cost Element Detail for each of the base years and for each option year shall be prepared. Exhibit A-4 must be submitted in support of any proposed Facilities Capital Cost of Money. The submission of Exhibit A-4 is in lieu of Form CASB-CMF.

Cost or pricing data shall be fully supported, documented, and traceable. The offeror shall reference, when applicable, page numbers, paragraphs, charts, and exhibits. The offeror should also state which cost elements are based on actual and verifiable data and which cost elements are based on projections. For projected cost elements, provide the judgmental factors applied in projecting from known data to the estimate. Also, discuss the following:

- (A) The contingencies used by the offeror in the proposed cost elements; and
 - (B) The basis of the estimate for each cost element, i.e., the labor rates, skill mix, and hours, the indirect rates, subcontractors/consultants, material prices, escalation rates, transportation costs (air fares and per diem rates), number of travel days and destinations, etc.
- (ii) **Exhibit B - Summary of Escalation Factors:**

The offeror, in its own format, shall provide a list of proposed yearly (identified as contractor fiscal year) escalation factors by cost element and the supporting rationale and historical data for each factor proposed.

- (iii) **Exhibit C - Summary of Indirect Expense Bases and Pools:**

This exhibit, prepared in the offeror's own format, will contain the major indirect expense bases and pools of expenses by type and dollar amount. At a minimum, this exhibit shall contain the details of the offeror's overhead and general and administrative (G&A) rates. If separate bid and proposal (B&P) and independent research and development (IR&D) rates are utilized, the details of such rates also shall be included. This exhibit shall be prepared for the offeror's most recently completed fiscal year, the current fiscal year, and the next fiscal year. A separate Exhibit C is required for each proposed indirect cost center. The offeror also shall submit a copy of any current Government-approved indirect rate agreement.

- (iv) **Exhibit D - Government Property:**

This exhibit shall be divided into two sections, Government Property - Furnished and Government Property - Contractor- Acquired. The presentation of the appropriate details in each section is left to the offeror's discretion.

If the offeror's proposal is based on the use of Government property, provide a list of those items in the appropriate section of this exhibit by nomenclature and estimated cost. Also state how the property will be acquired and how it will be used during contract performance. For each item of proposed Government Property - Furnished, describe the additional cost (and fee, if applicable) which would be incurred

should the Government decide not to furnish the proposed property (this includes Government property currently in the offeror's possession). For each item of Government Property - Contractor-Acquired, indicate the basis for the estimated cost or cite the appropriate cross- reference to such basis as given in the cost or pricing data attached to Exhibit A. Refer to Section H (Clause H.004) and Section L (Clause L.042) of this solicitation for additional information concerning Government property.

(v) Exhibit E - Work Breakdown Structure:

The Statement of Work as set forth in this solicitation is intended to define the work scope. The offeror shall prepare as Exhibit E a schedule, by cost element detail, to WBS Level 2 (task level) for the Statement of Work. (The precise format for Exhibit E is left to the offeror's discretion.) Exhibit E shall include the dollar amounts and total labor hours required. At this time, cost information at WBS Level 3 (subtask level) is not desired; however, this data may be required at a future date.

(vi) Exhibit F - Use of Government-Owned Facilities:

Exhibit F, prepared in the offeror's own format, will identify any Government-owned facilities proposed to be used for this effort. State how the facilities will be used, what arrangements have been made to use these facilities, and the expected amount of utilization. Provide an analysis which describes the additional costs and fee which would be incurred if the Government-owned facilities can not be provided or used.

(2) Section Two - Additional Information:

The offeror shall furnish all information requested below, if applicable:

- (i) Subcontracts. In addition to the subcontractor cost or pricing data required in support of the proposal, the following information is required for planned subcontracts of \$100,000 or more:
 - (A) A brief description of the work to be subcontracted.
 - (B) The number of quotations solicited and received.
 - (C) The cost or price analysis performed by the offeror.

- (D) The names and addresses of the subcontractors tentatively selected and the basis of selection, i.e., low bidder, delivery schedule, technical competence, etc.
 - (E) An adjective rating of the subcontractor's competence (e.g., fair, good, excellent).
 - (F) A statement as to whether or not the subcontractor is a small business concern or small disadvantaged business concern.
 - (G) The type of subcontract contemplated and estimated cost and fee or profit.
 - (H) A statement as to the subcontractor's affiliation, if any, with the offeror.
- (ii) Consultants. For each consultant proposed, the following information should be supplied with the offeror's Cost Proposal:
- (A) Resume'.
 - (B) Details of what cost elements are included in the rate and what costs would be charged in addition to the rate.
 - (C) Five (5) invoices, submitted by the consultant to private industry that support the proposed rate, and confirmation of payment; or employment history for the previous three (3) years, covering only those times when the consultant worked 20 days or more, and salary and rate history for the previous three (3) years.
 - (D) A signed consulting agreement between the offeror and the consultant (if one has been negotiated) or a summary of the status of negotiations.
 - (E) A signed statement from the consultant that the proposed rate is a "Most Favored Customer Rate," or the reason it was not offered.
 - (F) A rate comparison from the offeror which concludes that the rate proposed is comparable to the rates of other consultants doing similar types of work. The offeror may be asked to provide the names of the other consultants used in the comparison. If such conclusion cannot be supported, an explanation should be furnished as to why the rate proposed is still considered to be reasonable.

- (G) The offeror's technical evaluation of the need to employ a consultant, which shall include the consultant's technical ability to perform the desired work, along with a statement that in-house resources are unavailable for performance of the effort or the reason why in-house resources will not be utilized.

(3) Section Three - Exceptions and Deviations:

The offeror shall identify and explain any exceptions, deviations, or conditional assumptions taken with respect to the requirements of the solicitation relative to the Cost Proposal. Any exceptions, etc., taken must contain sufficient amplification and justification to permit evaluation. The benefit to the Government shall be explained for each exception taken. Such exceptions will not, of themselves, automatically cause a proposal to be deemed unacceptable. However, a large number of exceptions, or one or more significant exceptions not providing benefit to the Government, may result in rejection of the proposal as unacceptable.

L.046 PROPOSAL PREPARATION INSTRUCTIONS - VOLUME V, ENVIRONMENTAL DATA AND ANALYSES - PHASE II/III

(a) General

- (1) Volume V, Environmental Data and Analyses, consists of information provided by the offeror in the form of environmental data and analyses of the potential environmental impacts of satisfying the proposed requirements of the Statement of Work. The questions set forth in paragraph (b), Format and Content, must be addressed as part of the solicitation.
- (2) Environmental factors will be considered along with the Technical Proposal, Business/Management Proposal, and Cost Proposal. The Environmental Data and Analyses requested as part of the solicitation will be separately assessed. The data and analyses will be verified at which time DOE will prepare an environmental critique. Based on the critique, DOE will prepare an environmental synopsis. The purpose of the synopsis is to document the consideration given to environmental factors and to record that the relevant environmental consequences of reasonable alternatives have been evaluated in the selection process, including taking no action. After selection, the environmental synopsis must be filed with the Environmental Protection Agency (EPA), made publicly available, and incorporated in an Environmental Analysis prepared for the project.

- (3) The offeror shall clearly identify information in this volume that is considered proprietary and should not be released to the public.

(b) Format and Content.

The Environmental Data and Analyses requested in support of the Department of Energy's National Environmental Policy Act (NEPA) implementing regulations (10 CFR 1021.216) are as follows:

- (1) If the project would occur at an existing facility, describe the facility's current use and, if applicable, state the facility's mission.
- (2) If the project would be conducted in an existing building not requiring major modification, describe the current use of the building. If not in current use, state its previous use.
- (3) If the project would require construction of a new building, provide the following information:
 - (i) Size and location of the new building. Provide a map showing the site's topographic features, and describe the existing conditions on the site.
 - (ii) Present or planned land use of the area, e.g., state if the area is currently zoned for industrial use.
 - (iii) Describe whether building construction would potentially affect environmentally sensitive resources, such as properties of historic, archaeological, or architectural significance; threatened or endangered species or their habitat; flood plains and wetlands; prime agricultural lands; special sources of water, such as sole source aquifers.
- (4) If the project would require construction of a building addition, provide the following information:
 - (i) Size and location of the building addition. Provide a map showing the site's topographic features, and describe the existing conditions on the site.
 - (ii) Describe the existing building use.

- (iii) Describe whether building construction would potentially affect environmentally sensitive resources, such as properties of historic, archaeological, or architectural significance; threatened or endangered species or their habitat; flood plains and wetlands; prime agricultural lands; special sources of water, such sole source aquifers.
- (5) If the project would require major interior modifications or clean-up of an existing building, explain the activities and any associated environment issues, such as generation and disposal of solid waste or asbestos removal.
- (6) Provide a list of hazardous wastes, and approximate quantities that would be generated by the process. Describe the storage and disposal plans for such wastes.
- (7) Explain whether conduct of the project would require new or additional permits from regulatory agencies, such as a waste water discharge permit.
- (8) Describe the facility's Emergency Response Plan and Waste Minimization Plan, if such plans are in existence.
- (9) Discuss the local population density, e.g., state the distance to nearest main population center.
- (c) Mitigating/Management Actions.
 - (1) Explain the environmental concerns, requirements and monitoring systems, and discuss how the fabrication plan mitigates impacts to the environment.
 - (2) The methodology should include methods for mitigating and managing the environmental impact of accomplishing the tasks in the Statement of Work.
- (d) Other Pertinent Information.

This section shall contain any other pertinent information on the potential environmental impacts of the proposed work, or which will supplement or aid in the understanding and evaluation of the information in paragraph (b) above.
- (e) Other Pertinent Information. This section shall contain any other pertinent information which will supplement or aid in the understanding and evaluation of the Technical Proposal.
- (f) Technical Exceptions and Deviations. This section shall identify and explain any exceptions or deviations taken or conditional assumptions made with respect to the

technical requirements of the solicitation. Any exceptions, etc., taken must contain sufficient amplification and justification to permit evaluation. The benefit to the Government shall be explained for each exception taken. Such exceptions will not, of themselves, automatically cause a proposal to be deemed unacceptable. However, a large number of exceptions, or one or more significant exceptions not providing benefit to the Government, may result in rejection of the proposal as unacceptable.

L.047 PROPOSAL DELIVERY INFORMATION (MAY 1996)

(a) Signed Originals.

Copy No. 1 of the proposal shall contain the signed original of all documents requiring signature by the offeror. Use of reproductions of signed originals is authorized in all other copies of the proposal.

(b) Handcarried Proposals.

If the offeror elects to forward the proposals by means other than the U.S. Mail, he assumes the full responsibility of insuring that the proposals are received by the date and time specified in Solicitation Part IV - SECTION L, Provision L.007. Such proposals must be closed and sealed as if for mailing.

L.048 AUTOMATIC DATA PROCESSING PROPOSAL INSTRUCTION (MAY 1996)

In order that the Department of Energy may properly consider available Government resources for automated data processing and associated communicating, word processing, and/or telecommunication equipment and services, the offeror shall separately identify, in summary format, in its technical proposal, the contract performance requirements for these services or equipment. This summary shall be separate to permit review by the DOE staff and shall include existing facilities as well as planned outside resources available from either Government or commercial concerns. Related and proposed costs for these services shall be identified in the Cost proposal. The Government will utilize this information to determine proper utilization of and economy in the use of data processing equipment and/or services.

L.053 FAR 52.215-20 REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA (OCT 1997)

(a) Exceptions from cost or pricing data.

- (1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.
 - (i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.
 - (ii) Commercial item exception. For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include--
 - (A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities.
 - (B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market.
 - (C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

- (2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. Access does not extend to cost or profit information or other data relevant solely to the offeror's determination of the prices to be offered in the catalog or marketplace.
- (b) Requirements for cost or pricing data. If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:
 - (1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.
 - (2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed in FAR 15.406-2.

L.055 FAR 52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984)

- (a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.
- (b) The use in this solicitation of any Department of Energy Acquisition Regulation (48 CFR Chapter 9) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

L.078 FAR 52.222-24 PREAWARD ON-SITE EQUAL OPPORTUNITY COMPLIANCE REVIEW (APR 1984)

An award in the amount of \$1 million or more will not be made under this solicitation unless the offeror and each of its known first-tier subcontractors (to whom it intends to award a subcontract of \$1 million or more) are found, on the basis of a compliance review, to be able to comply with the provisions of the Equal Opportunity clause of this solicitation.

L.079 DEAR 952.233-2 SERVICE OF PROTEST (AUG 1996)

- (a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO) or the General Services Administration Board of Contract Appeals (GSBCA), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from:

U.S. Department of Energy
DOE Oakland Operations Office
Contracts, Acquisition and Property Division
1301 Clay Street, Room 700N
Oakland, CA 94612-5208
ATTN: Contracting Officer
Solicitation No. DE-RP03-00SF22042

- (b) The copy of any protest shall be received in the office designated above on the same day a protest is filed with the GSBCA or within one day of filing a protest with the GAO.
- (c) Another copy of a protest lodged with the General Accounting Office shall be furnished to the following address within the time periods described in paragraph (b) of this clause:

U.S. Department of Energy
Assistant General Counsel for Procurement
and Finance (GC-61)
1000 Independence Avenue, S.W.
Washington, D.C. 20585
FAX: (202) 586-4546

- (d) Another copy of a protest lodged with the General Services Board of Contract Appeals shall be furnished to the following address:

U.S. Department of Energy
Assistant General Counsel for Procurement
and Finance (GC-61)
1000 Independence Avenue, S.W.
Washington, D.C. 20585
FAX: (202) 586-4546

- (e) In this procurement, you may protest to the GSBCA because of the nature of the supplies or services being procured.

L.080 DEAR 952.233-4 NOTICE OF PROTEST FILE AVAILABILITY (SEP 1996)

- (a) If a protest of this procurement is filed with the General Accounting Office (GAO) in accordance with 4 CFR Part 21, any actual or prospective offeror may request the Department of Energy to provide it with reasonable access to the protest file pursuant to FAR 33.104(a)(3)(ii), implementing section 1065 of Public Law 103-355. Such request must be in writing and addressed to the contracting officer for this procurement.
- (b) Any offeror who submits information or documents to the Department for the purpose of competing in this procurement is hereby notified that information or documents it submits may be included in the protest file that will be available to actual or prospective offerors in accordance with the requirements of FAR 33.104(a)(3)(ii). The Department will be required to make such documents available unless they are exempt from disclosure pursuant to the Freedom of Information Act. Therefore, offerors should mark any documents as to which they would assert that an exemption applies. (See 10 CFR part 1004)

SECTION M
EVALUATION FACTORS FOR AWARD

M.001 EVALUATION - QUALIFICATION CRITERIA FOR PHASE I**Phase I Proposal**

- (a) This solicitation includes the Qualification Criteria for Phase I listed in Clause M.002 in this Section M. Only those Phase I proposals which clearly demonstrate that the Qualification Criteria are met shall be evaluated. Offerors whose Phase I proposals do not meet the Qualification Criteria shall be advised of that determination.
- (b) Proposals that have met the Qualification Criteria will be evaluated in accordance with applicable DOE acquisition policies and procedures. Evaluation will be performed to determine the offeror's understanding of the work to be performed, the technical approach, the potential for completing the work as specified in the solicitation, the reasonableness and realism of proposed costs, and the probable cost to the Government.
- (c) The Technical proposal will be adjectively rated. The Cost Proposal will not be adjectively rated.
- (d) In conducting this evaluation, the Government may utilize technical assistance and advice from qualified professional and scientific personnel both within and outside the Government. "Outside the Government" personnel could include contractor personnel from DOE National Laboratories and other sources approved by the Government. In view of the possibility of DOE going outside the Government for evaluation assistance, offerors are requested to state on the cover of their proposals that consent is or is not given for such "outside the Government" personnel to have access to their proposals. The offeror is advised that DOE may be unable to give full consideration to a proposal submitted without such consent. "Outside the Government" personnel who provide evaluation assistance will be required to sign non-disclosure certifications.
- (e) Final ratings and awards will be the sole responsibility of officers and employees of the Department of Energy. There is no commitment on the part of DOE to make any award, or any particular number of awards, or to make an award or awards which, in the aggregate, total to any particular sum.
- (f) Award will be made to that responsible offeror(s), whose offer(s), conforming to this solicitation, is (are) considered most advantageous to the Government, considering the Evaluation Criteria in this Section M.

Phase II/III Proposal

- (a) The Technical proposal and Business/Management proposal will be adjectively rated. The Cost Proposal and Environmental Data and Analysis will not adjectively rated.
- (b) In conducting this evaluation, the Government may utilize technical assistance and advice from qualified professional and scientific personnel both within and outside the Government. "Outside the Government" personnel could include contractor personnel from DOE National Laboratories and other sources approved by the Government. In view of the possibility of DOE going outside the Government for evaluation assistance, offerors are requested to state on the cover of their proposals that consent is or is not given for such "outside the Government" personnel to have access to their proposals. The offeror is advised that DOE may be unable to give full consideration to a proposal submitted without such consent. "Outside the Government" personnel who provide evaluation assistance will be required to sign non-disclosure certifications.
- (c) Final ratings and awards will be the sole responsibility of officers and employees of the Department of Energy. There is no commitment on the part of DOE to make any award, or any particular number of awards, or to make an award or awards which, in the aggregate, total to any particular sum.
- (d) Award will be made to that responsible offeror, whose offer, conforming to this solicitation, is considered most advantageous to the Government, considering the Evaluation Criteria in this Section M.

M.002 QUALIFICATION CRITERIA - PHASE I

The proposal must clearly demonstrate that the offeror meets each and every one of the below Qualification Criteria in order to be evaluated in accordance with the Evaluation Criteria.

Qualification Criteria

1. If the Offeror proposes an alternate Stirling technology to the Stirling convertor specified in the Statement of Work (a 55 watt-electric Stirling convertor developed by the Stirling Technology Co) then the Offeror must provide documentation that the proposed alternative Stirling technology is at an equivalent technology readiness level in the following performance areas:
 - a) successfully passed flight qualification vibration tests [Ref. (1), (6)];

- b) demonstrated continuous operation of at least two years [Ref. (4), (5)];
- c) demonstrated performance of at least 20% conversion efficiency [Ref. (4), (5)];
- d) demonstrate performance characteristics of organic materials in an ionizing radiation environment [Ref. (2)];

M.003 OVERALL RELATIVE IMPORTANCE OF EVALUATION CRITERIA

Phase I Proposal

- (a) The Technical Proposal is of greater importance than the Cost Proposal. However, if, after evaluation of the Technical Proposals, two or more competing overall proposals have similar ratings, evaluated probable cost to the Government may be the deciding factor for selection, depending on whether the most acceptable overall proposal (excluding cost consideration) is determined to be worth the cost differential, if any. The offer and other documents proposal is to be evaluated for adequacy and compliance with the solicitation.
- (b) Volume I of the overall proposal entitled "Offer and Other Documents" will be reviewed for adequacy and compliance with the solicitation.

Phase II/III Proposal

- (a) The Technical Proposal is of greater importance than the Business/Management Proposal, which is more important than the Cost Proposal, which is more important than the Environmental Data and Analysis. However, if, after evaluation of the Technical and Business/Management Proposals, two or more competing overall proposals have similar ratings, evaluated probable cost to the Government may be the deciding factor for selection, depending on whether the most acceptable overall proposal (excluding cost consideration) is determined to be worth the cost differential, if any, taking into consideration the Environmental Data and Analysis Proposal. The offer and other documents proposal is to be evaluated for adequacy and compliance with the solicitation.
- (b) Volume I of the overall proposal entitled "Offer and Other Documents" will be reviewed for adequacy and compliance with the solicitation.

M.004 EVALUATION CRITERIA

Phase I Proposal

- (a) Technical Evaluation Criteria. The Technical Proposal will be adjectively rated in accordance with the criteria stated below:

Relative Importance of Technical Evaluation Criteria. Criteria 3 and 4 are of equal importance and are each twice as important as Criterion 1. Criterion 1 is three times as important as Criterion 2.

Listing of Technical Evaluation Criteria:(1) Criterion 1 System Integration Capability:

The extent to which the offeror has the capability and experience to perform the function of a system integrator for a complex space radioisotope power system in all the task areas and subtasks areas required by the Statement of Work, Section J, Attachment I.

(2) Criterion 2 Past Performance on Contracts of Similar Technical Complexity:

The extent to which the offeror has (a) met the technical requirements of the contract, (b) complied with contract requirements, (c) met milestones and adhered to contract schedules, (d) effectively controlled costs, and (e) provided effective management of the small/small disadvantaged business subcontracting program.

(3) Criterion 3 Design Approach of the SRPS

The extent to which the offeror's design approach demonstrates design concepts which meet the SRPS requirements (as shown in Task 1.1 of the Statement of Work).

(4) Criterion 4 Technical Approach of the SRPS

The extent to which the offeror's technical approach demonstrates that it can meet the SRPS requirements and Outer planet/Solar Probe mission goals (as shown in Task 1.1 of the Statement of Work) with regard to:

- Initial trades for system performance and mass
- SRPS performance estimates
- Stirling interface definitions
- SRPS integration with the spacecraft
- Identification/reduction of technical risks
- Technology tradeoffs

(b) Cost Evaluation Criterion. The Cost Proposal will be evaluated to establish:

- (1) Reasonableness and realism of proposed costs.
- (2) Evaluated probable cost to the Government.

The Cost Proposal will not be adjectivally rated.

Phase II/III Proposal

- (a) Technical Evaluation Criteria. The Technical Proposal will be adjectively rated in accordance with the criteria stated below:

Relative Importance of Technical Evaluation Criteria. Criterion 1 is the most important criteria. Criteria 2 is one fifth as important as Criteria 1. Criteria 3 is twice as important as Criteria 2.

Listing of Technical Evaluation Criteria:

- (1) Criterion 1 Understanding of Requirements and Soundness of Technical Approach: Subcriteria 1.A and 1.B are of equal importance and each are twice as important as subcriteria 1.C, 1.D, or 1.E. Subcriteria 1.C, 1.D, and 1.E are of equal importance.

- 1.A Extent of how the design approach of the Stirling Radioisotope Power System (SRPS) conducts system trade-offs to meet mission requirements.

Extent the design approach proposed for the SRPS identifies and resolves issues/concerns that reflect the characteristics of Stirling convertor, launch/mission requirements, manufacturing, testing, operational, and accidental safety requirements. Extent the testing proposed demonstrates the reliability of the Stirling convertor and of the SRPS system.

- 1.B Extent of understanding of the issues related to the materials and manufacturing methods used in the Stirling convertor as it applies to the SRPS

Extent of understanding of the issues related to the materials and manufacturing methods used in the Stirling convertor selected for this project as evidenced by the scientific logic and detail of the proposed plans for: integrating the Stirling convertor into a complete SRPS system, and the modeling and experimental program that will be used to characterize and verify performance predictions of the Stirling convertor.

The extent to which materials and the Stirling convertor in the proposed SRPS have been produced with acceptable yields and product quality.

1.C Adequacy of the plan to manufacture the SRPS using a Stirling convertor (known as the 55 We Technology Demonstration Convertor (TDC)) developed under DOE contract with Stirling Technology Company

Extent the Fabrication Plan identifies issues and concerns to assure that the SRPS can be manufactured to meet mission requirements for quality, reliability, and process accountability using the TDC.

The extent the manufacturing, assembly, and test facilities proposed are appropriate and will be made available to the Contractor for use on this contract and the extent that such facilities meet development and production requirements.

The extent to which the manufacturing descriptions, plans and controls used to convert design packages to manufacturing instructions are adequate to insure manufacturing instructions that schedule and control the manufacturing process.

1.D Extent of knowledge of the safety analysis, nuclear risk assessment methodologies and launch approval process for payloads which include nuclear material

Extent of knowledge of the safety analysis, and the review and launch approval processes for space nuclear material payloads, as evidenced by the proposed task efforts.

1.E Extent of knowledge of the integration process for space power systems

Extent of knowledge in integrating power system components into spacecraft platforms to meet launch and mission requirements and in interfacing with organizations involved in the spacecraft development and acceptance, SRPS fueling and acceptance, and the launch preparation processes.

(2) Criterion 2 Organization and Personnel Qualifications: Subcriteria 2.A and 2.B are of equal importance.

2A. Qualifications, availability, and commitment

Extent of the qualifications, availability, and commitment of the proposed project staff, as demonstrated by detailed resumes and percentage of time

devoted to each task by principal technical and technical management personnel. Extent of availability, general experience, and qualifications of additional technical and management personnel resources available for assignment to possible vacancies created during the contract period as a result of retirements, reassignments, or similar reasons.

Extent that principal personnel have worked together on other projects.

2.B The degree to which the proposal reflects an organizational structure that is consistent with the project objectives

The degree to which the organizational structure supports the project that is responsible to project objectives but minimizes staffing requirements and appropriately uses matrixed or subcontracted staff.

(3) Criterion 3 Project Management

3.A Adequacy of the Project Management Plan to accomplish the objectives in the Statement of Work while meeting the project schedule and budget

Adequacy of the Project Management Plan (PMP), including the Contract Work Breakdown Structure (CWBS), to accomplish the objectives in the Statement of Work while meeting the project schedule and budget. The extent the PMP identifies and resolves technical problems and uncertainties, realistically describes tasks, activities, and time tables, and integrates various activities and program participants. The extent the PMP provides recommendations to improve SRPS performance, to increase timeliness and quality of deliverables, and to reduce program cost and schedule.

- (b) Business/Management Evaluation Criteria: The Business/Management Proposal will be adjectively rated in accordance with the criterion stated below.

Relative Importance of Business/Management Evaluation Criterion: Criterion (1) is four times as important as criteria (2).

Listing of Business/Management Evaluation Criteria:

- (1) Criterion 1 Business/Management Organization: Subcriterion 1.A, 1B, 1.C, and 1.D are of equal importance.

- 1.A Overall Management: Adequacy of management capabilities and sufficient resources to successfully complete the program (management capabilities and resources include equipment, personnel, and facilities and the ability to provide a synergistic team efforts); qualifications, experience, ability to establish and control costs, schedules, and technical performance status. Proven ability to track, report, and control costs and achieve cost targets.
- 1.B Interface Capabilities: Adequacy of resources and systems to comply with Government procurement, property, and subcontracting rules, regulations, and procedures dealing with programs having a similar scope and magnitude.
- 1.C Interest and Commitment of Corporate Management: Demonstration of top management interest in, and commitment to support of the program.
- 1.D Cost Control Capabilities: Demonstration of the contractor's ability to control costs. Extent to which a system is in place to track, monitor, report, and control costs. Extent to which procedures are in place for notification of potential cost overruns and cost containment procedures for actual overruns.
- (2) Criterion 2 Subcontracting and Subcontract Management: Sub-criterion 2.A is twice as important as either sub-criterion 2.B or 2.C, which are of equal importance.
 - 2.A Subcontracting Plan: Adequacy of a complete and acceptable subcontracting plan specific to this procurement which demonstrates full support of PL 95-507 and PL 100-656, and which contains acceptable proposed dollar and percentage goals for each phase of the effort.
 - 2.B Subcontracting Selection: Adequacy of competitive methods and selections utilized to the fullest extent possible without impacting performance.
 - 2.C Small and Disadvantaged Business Participation: Adequacy of efforts made and methods employed to encourage and utilize small business and small disadvantaged business participation to support this effort.
- (c) Cost Evaluation Criterion. The Cost Proposal will be evaluated to establish:
 - (1) Reasonableness and realism of proposed costs.

- (2) Evaluated probable cost to the Government.

The Cost Proposal will not be adjectivally rated.

(d) Environmental Data and Analyses Evaluation

The Environmental Data and Analyses will be evaluated and verified for completeness and accuracy, and will be used to assess:

- (1) The extent of potential impact on the environment; and
- (2) The extent of mitigating/management actions planned to minimize any adverse environmental impacts.

The Environmental Data and Analyses will not be adjectivally rated.
